(Rev. 1, 10-01-03)

A-01-20, A-01-63, B-00-68, B-01-06, B-01-32

EDI submitters may send an inbound ANSI X12N 837 transaction that contains all data possible, and contractors must be able to accept it at their front end; however, they need not process non-Medicare information. They must retain the original inbound ANSI X12N 837 data in order to transmit a fully HIPAA-compliant outbound ANSI X12N 837 COB to their COB trading partners. This data must be stored in a repository file built by their shared system prior to entering their shared system's main processing system. The data in the repository file must be retrieved at the back end, along with data required for Medicare, to build a HIPAA-compliant outbound ANSI X12N 837 COB transaction. The ANSI X12N flat file accommodates COB data. The ANSI X12N format and data content requirements pertain to the DDE output if it is held outside a contractor's system and transmitted later. If the DDE output is entered directly into the contractor's system, only the data content requirements of the standard must be met.

An X12N-based flat file facilitates implementation of the other ANSI X12N transaction standards adopted under HIPAA. It allows a one to one correlation between the flat file and the data received, eliminating omissions of data needed for a compliant outbound ANSI X12N 837 coordination of benefits (COB) transaction.

FIs accept a HIPAA compliant ANSI X12N 837 transaction into their front-end system and write the Medicare Part A Claim/COB flat file to their shared system.

A HIPAA compliant ANSI X12N 837 transaction may include Medicare data (data sent to the core of the contractor's shared system) and non-Medicare data (data not sent to the core of the contractor's shared system). Contractor translators validate syntax compliance of the inbound ANSI X12N 837 standard such as alpha-numeric or numeric data formats, field lengths, valid qualifiers, mandatory loops and segments, appropriate segments within a given loop, and handling multiple ISA/IEA envelopes within one transmission. Contractor systems validate for syntax compliance specific to the Implementation Guide (IG). Contractors use the X12 997 Functional Acknowledgment to report standard level errors detected by their translators. They create the X12 997 Functional Acknowledgment, as detailed in the ANSI X12N 837 HIPAA version implementation guide, to all EDI submitters who submit claims in the ANSI X12N 837 HIPAA version format. While translators can perform additional claim level editing, FIs and their shared systems determine where it is most efficient to perform those edits, such as within the front-end system or within the shared system. The ANSI X12N 837-based flat file is a flat file based on the electronic Uniform Billing UB-92 naming structure.

Contractors create the X12 997 Functional Acknowledgment as detailed in the IG and transmit it to all EDI submitters who submit claims in the IG format. They use the X12 997 listed in the IG beginning on page B.2. The X12 997 GS08 data element contains the ANSI X12N 837 GS08 data.

The X12 997 is used for ANSI X12N 837 standard syntax editing only. Contractors must return a X12 997 within 1 business day. They must use X12 997 loops AK2, AK3, and AK4. They may purge the X12 997 after five business days in the event the X12 997 transaction is not received by the submitting entity. They are not required to accept multiple functional groups (GS/GE) within one transmission.

Contractors accept at least the basic character set on an inbound ANSI X12N 837, plus lower case and the “@” sign which are part of the extended character set. Refer to Appendix A, page A2, of the implementation guide for a description of the basic character set. A contractor’s translator may reject an interchange that contains any other characters submitted from the extended character set.

Contractor translators edit the envelope segments (ISA, GS, ST, SE, GE, and IEA) so the translation process can immediately reject an interchange, functional group, or transaction set not having met the requirements contained in the specific structure. Otherwise, such occurrences could cause software failure when mapping to the X12N-based flat file. Contractors are not required to accept multiple functional groups (GS/GE) within one interchange. Their translator’s acceptance of multiple interchange envelopes within a single transmission may be determined within their trading partner agreements.

The date-of-receipt will be translator generated and mapped to the Medicare Part A Claim/COB flat file.

If a syntax error occurs at the standard level, the contractor returns the entire transmission (ISA to IEA) to the submitter via the X12 997.

Contractor translators also:

- Convert lower case to upper case;
- Pass all spaces to the X12N-based flat file for fields that are not present in the inbound ANSI X12N 837 HIPAA version;
- Map “Not Used” data elements based upon that segment’s definition, i.e., if a data element is never used, the translator does not map it. However, if a data element is “required” or “situational” in some segments but not used in others, then it must be mapped;
- Remove the hyphen from all range of dates with a qualifier of “RD8” when mapping to the X12N-based flat file; and
- Accept multiple interchange envelopes within a single transmission.

20.1 - Decimal Data Elements

(Rev. 1, 10-01-03)

B-01-06

All decimal data elements are defined as “R.” Contractor translators write these data elements to the X12N-based flat file at their maximum field size, which will be initialized to spaces. The COBOL picture found under the ANSI X12N 837 element name is used to limit the size of the amounts. These positions are right justified and zero-filled. Contractor translators convert signed values using the conversion table shown below. This value is placed in the last position of the COBOL-defined field length. The last position of maximum defined field length of the X12N-based flat file data element is used as a placeholder to report an error code if an “R” defined data element exceeds the limitation that the Medicare system is authorized to process. The error code values are: “X” = value exceeds maximum amount based on the COBOL picture, “Y” = value exceeds maximum decimal places based on the COBOL picture, “Z” = value exceeds x-number of precision places, and “b” blank represents no error. For example, a dollar amount with the IG maximum of 18-digits would look like 12345678.90. The contractor translator maps this amount to the X12N-based flat file using the COBOL picture of S9(7)V99. The flat file amount looks like 23456789{bbbbbbX. The “{” is the converted sign value for positive “0.” The error switch value is “X” since this value exceeded the COBOL picture of S9(7)V99.

Conversion Table

Positive Values	Negative Values
1 = A	-1 = J
2 = B	-2 = K
3 = C	-3 = L
4 = D	-4 = M
5 = E	-5 = N
6 = F	-6 = O
7 = G	-7 = P
8 = H	-8 = Q
9 = I	-9 = R
0 = {	-0 = }

20.2 - Transmission Mode - Inbound X12N837 HIPAA Version Claim

(Rev. 1, 10-01-03)

A-01-20, B-01-06

The ANSI X12N 837 standard claim transaction is a variable-length record designed for wire transmission. The CMS recommends contractors accept the ANSI X12N 837 over a wire connection. However, contractors may support tape or diskettes for those trading partners that do not want to send/receive transmissions via wire. Each sender and receiver must agree on the blocking factor and/or other pertinent telecommunication protocols.

Contractors need not support file compression for ANSI X12N transactions. The CMS permits compression between the contractor and its data center. However, the X12N-based flat file must not be compressed when presented to the contractor's shared system.

20.3 - Free Billing Software

(Rev. 1, 10-01-03)

A-01-20

Each FI's shared systems maintainer upgraded the FI's free billing software to support the submission of claims in the IG format and made it available to requesting providers. FI billing software produces an IG compliant 837 for Medicare Part A claims. FIs coordinate test data issues with their testing partners. The CMS does not provide test data.

20.4 - External Keyshop or Imaging Processing

(Rev. 1, 10-01-03)

A-01-20

FIs support only the UB-92 version 6.0 as the output format for paper claims received from their external keyshop or imaging processes. Since CMS discontinued support for the UB-92 version 6.0, migration to the Medicare Part A Claim/COB flat file as the output format for these claims is required. If an FI decides to use the Medicare Part A Claim/COB flat file as output for these claims, it may bypass the IG edits since these claims do not contain all of the data on the inbound ANSI X12N 837 transaction.

20.5 - Provider Direct Data Entry (DDE)

(Rev. 1, 10-01-03)

A-01-20, B-01-06

DDE systems are not subject to the syntax (format) requirements of the standards, but must contain “applicable data content” for the claim. Contractors may continue to use existing DDE screens for claim corrections since this function is not subject to HIPAA. DDE systems are proprietary by definition. They are a direct link between a particular health plan (Medicare) and its providers, and the software (and sometimes hardware) is unique to and maintained by the plan. The CMS recognizes that DDE may be the only viable means of EDI available to some providers, particularly small providers. The widespread use of the standard HIPAA transactions makes it economically feasible for more providers to procure or develop their own EDI products that can be used with all plans. The use of DDE should decrease over time as a result. The requirement for “applicable data content” is meant to facilitate that eventual conversion. Implementing the data content portion of the standards now means that a provider’s change from DDE to their own EDI software (or to use of a clearinghouse) would be simplified, and plans would be able to accommodate DDE-generated data and HIPAA standard transaction-generated data in the same databases.

In this context, “applicable data content” means that contractor shared system DDE systems must:

- Collect all fields that are **required** in the IG as well as those **situational** elements that are needed for Medicare processing (unless the data is already available to the payer’s system);
- Use **only** the internal and external code sets designated in the IG with no additions or substitutions;
- Provide for **at least** the field size minimums noted in the IG, but no more than the maximum sizes (Contractors may not expand their shared systems internal claim records); and
- Permit **at least** the minimum number of field repeats noted in the IG, but no more than the maximum number.

No IG requirements necessitate a change to contractor current DDE systems. There is no need to collect non-Medicare data. Claims correction via DDE should be limited to Medicare data (non-Medicare data in error should be purged with an appropriate error message to the DDE user). With Medicare data plus some information from contractor shared system files, an IG compliant COB transaction can be written.

20.6 - Edits Performed by the FI

(Rev. 107, 02-24-04)

A-01-20, A-01-63, A-02-119

FIs perform standard and IG edits as explained in the IG. *The* IG edits are standard among all FIs. If a syntax *compliance* error occurs at the IG level, the FI may reject the entire *data interchange*, the functional group, *the transaction*, or *the* claim. At a minimum, it must return the rejected claim on the confirmation report to the provider if it is not HIPAA compliant. Amounts, percentages, integers, and other fields designated in the IG as numeric are right-justified and zero-filled if the incoming data is smaller than the Medicare Part A Claim/COB flat file field size. Fields designated in the IG as alpha-numeric are left-justified and space filled if the incoming data is smaller than the Medicare Part A Claim/COB flat file field size. All non-Medicare data field lengths correspond to the maximum IG length. Incoming alpha-numeric non-Medicare data is left-justified and space filled if the data is smaller than the Medicare Part A Claim/COB flat file field size. Incoming numeric non-Medicare data is right-justified and zero-filled if the data is smaller than the Medicare Part A Claim/COB flat file field size. Non-Medicare data (and Medicare data elements where field sizes are in excess of the core system) are mapped to the Medicare Part A Claim/COB flat file (and later written to the Store and Forward Repository (SFR) by the FI's shared system. The SFR is a file in the FIs shared system used to hold Non-Medicare data for association with Medicare data at the end of the claims process, so all the incoming data is available for the outgoing transaction.). The following programmatic edits override the IG:

- Edits to check the X12 syntax and IG requirements are performed on all data (Medicare and non-Medicare). Claims failing these edits should be rejected. If a data element is used by Medicare (e.g., condition code) and Medicare uses a limited number of iterations, all iterations are edited the same.
- Claims where the ZIP code exceeds 9 positions are left adjusted and the claim is processed.
- Data where there is an IG note, internal code list, external code list, or qualifier are limited by the reference. Claims where data exceeds referenced sizes are flagged so the shared system can return to the provider (RTP) with an appropriate error message.
- The submitter Employer Identification Number (EIN) may not exceed 10 positions. Claims where the EIN exceeds 10 positions are rejected with an appropriate error message.
- Incoming data mapping to data elements marked "NOT USED" in the IG are disregarded.

- Date data may not exceed 8 digits (CCYYMMDD), except for date ranges. Claims where the date data exceeds 8 positions (and not a valid date range) are rejected with an appropriate error message.
- Claims where the attending, *other*, or operating physician numbers exceed 16 positions are flagged so the shared systems can RTP with an appropriate error message.
- Units of Service may not exceed 7 positions. If the Units of Service entry exceeds 7 positions, the claim is flagged so the shared systems can RTP with an appropriate error message.
- Number of days (covered, lifetime reserve, etc.) may not exceed 4 positions. If the number of days exceeds 4 positions, the claim is flagged so the shared systems can RTP with an appropriate error message.
- Credit card and foreign currency data are disregarded per note in the IG stating that this information must never be sent to the payer and therefore would not be included on the COB transaction.

The FI IG edit process maps amounts to the Medicare Part A Claim/COB flat file using the COBOL picture of S9(8)V99 (10 positions). Other numeric data elements are mapped to the data size described within the Medicare Part A Claim/COB flat file document. Data fields containing data larger than the data size described within the Medicare Part A Claim/COB flat file document are flagged in one of two ways. If the data is defined on the Medicare Part A/COB flat file as numeric, the field is populated with all nines. If the data is defined on the Medicare Part A/COB flat file as alpha-numeric, the field is populated with ampersands.

For claims exceeding 449 service lines, FIs write the first 449 lines to the Medicare Part A Claim/COB flat file (the claim is later RTP'd by the FI shared system with an appropriate error message).

Prior to April 1, 2003, the number of service lines written to the Medicare Part A Claim/COB flat file was 450, which included a total line. For claims received after March 31, 2003, the shared system uses CLM02 data, as well as other line item claim data, to create a 0001 line for use in internal processing. To generate an 837 COB, the shared system does not enter the 0001 revenue line on the flat file (moving the 0001 line ANSI codes to a Claim Level Adjustment fields on the flat file. To generate an 837 COB, the shared system generates the flat file total claim charge amount. After March 31, 2003, the 0001 revenue line is not sent on the outbound 837 COB transaction.

FIs pass all spaces to the Medicare Part A Claim/COB flat file for fields that are not present in the inbound ANSI X12N 837 HIPAA version. An "Additional Medicare Edits" document is available at <http://cms.hhs.gov/providers/edi/hipaadoc.asp>. This document contains the specifications of edits that Medicare FIs perform on an inbound claim transaction. The first page of the workbook provides an overview of the columns/fields on the second page and how to utilize this workbook with the separate

flat-file layout document. If a row/data element is gray in color, then the element is not used. The columns are as follows:

- Element Identifier - This is the ANSI X12N Element Reference Designator (also known as the Abbreviated Element Name) from the HIPAA Implementation Guide.
- Description - This is the ANSI X12N Element Name from the HIPAA Implementation Guide.
- ID - This is the ANSI X12N Data Type from the HIPAA Implementation Guide.
- Min./Max. - This is the element's minimum and maximum size in bytes from the HIPAA Implementation Guide.
- Usage Req. - This indicates the INDUSTRY usage of the segment or data element from the HIPAA Implementation Guide.
- Loop - If the segment is part of a loop of repeating segments, the ID of the loop will appear here. If the segment is not part of a loop, then this field is blank.
- Loop Repeat - If the segment is part of a loop of repeating segments, the INDUSTRY Loop Repeat value will appear here.
- Valid Values/Valid Format - This field specifies the valid values/format for this data element or if it is a date or time, it specifies the format of the date or time. The values listed here are all the valid values or formats that are defined in the Implementation Guide.
- Medicare Values - This field may specify a subset of values or formats from the "Values" field that are applicable to Medicare.
- X12 Page No. - The page of the HIPAA Implementation Guide that this segment begins.
- Imp Guide Edit - This field is a Yes/No indicator to indicate if this field is edited before passing the field to the standard Medicare claims processing system.
- Edit Logic - If the "Imp Guide Edit" field is Y, then this field will describe the type of editing to be performed on the data element. If the "Imp Guide Edit" field is N, this field will be blank.
- Suggested Reject Level - If there is edit logic to be performed for this data element, this field indicates that should the edit logic fail, this type of reject will occur.

Each FI has the authority to decide how its proprietary reports going back to its submitters are done. They have the authority to provide provider education in lieu of or in addition to the FI reports.

20.7 - Edits Performed by the Shared Systems

(Rev. 1, 10-01-03)

A-01-20, A-01-63

Claims with Medicare numeric data elements containing all nines or claims with Medicare alpha-numeric data elements containing ampersands, are RTP'd, via the contractor, with an appropriate error message.

Claims with S9(8)V99 numeric data elements containing an amount greater than corresponding fields set in the FI core system at 9 digits (S9(7)V99) are returned by the shared system to the provider via the contractor with an appropriate error message.

Data residing on the Medicare Part A Claim/COB flat file as a result of data received in loop 2010BD RESPONSIBLE PARTY NAME of the ANSI X12N 837 are RTP'd with an appropriate error message because Medicare policy requires a signature on file for payment.

Shared systems do not return non-Medicare data to the provider.

NOTE: Shared system core fields are not to be expanded.

20.8 - Attachment Data Processing

(Rev. 1, 10-01-03)

A-01-63

The HIPAA 837 HIPAA version does not contain all of the attachment data contained in existing formats. Some FIs receive attachment data via EDI and some do not. The decision to continue attachment processing via the Uniform Billing (UB) 92 Version 6.0 is made by each shared system user group, based on consensus. If the UB-92 Version 6.0 is used, FIs follow the UB-92 Version 6.0 instructions below. Otherwise, they use Direct Data Entry (DDE) or paper. They need not create a 997 to acknowledge attachment data. They may create and use their own proprietary report(s) for feedback purposes. In a future regulation, CMS will standardize attachment data processing under HIPAA.

UB-92 Version 6.0

The HIPAA 837 HIPAA version does not contain attachment data found in the UB-92 record types (RTs) 74 through 77, which are used primarily for medical review. This data cannot be submitted with the 837. FIs must maintain the capability to process certain UB-92 RTs used to create an attachment to an existing claim. These include

RT01 (envelope record - shows where the records are coming from), RT10, RT74, RT75 series, RT76 series, RT77 series, RT90, RT95, and RT99 only (RT71, RT72, and RT73 are not included because the home health agency data in those records are adequately included in the HIPAA 837 HIPAA version). These records are processed and their data merged with claims previously accepted into the FI adjudication system. FIs must ask the provider for the attachment providing the internal control/document control number (ICN/DCN) of the previously accepted claim. The provider will include it on RT74. FIs with providers that send UB-92 claims that include attachment RTs must notify those providers of the required processing change. FI shared systems process attachment UB-92 records against previously accepted claims. Information concerning the layout sequencing and use of these UB-92 RTs is in [§100](#) below.

Provider Direct Data Entry (DDE)

Providers may use existing DDE screens for the input of attachment data.

Paper

Another format once used for submitting attachment data is Form CMS-1450. Paper attachment data may not be submitted with the 837. FIs must ask their providers for the attachment providing the previously accepted claim ICN/DCN. The provider will include it on Form CMS-1450, Form Locator 37. Information concerning the layout and use of Form CMS-1450 can be found in [§60](#).

20.9 - Related Internet Files Routinely Updated by CMS

(Rev. 1, 10-01-03)

The Medicare Part A Claim/COB flat file for mapping the institutional 837 HIPAA version to the UB-92, version 6.0, is located at:
<http://cms.hhs.gov/providers/edi/hipaadoc.asp> (Item 5 under Intermediaries - 4010837i.xls.) Exhibit 1 gives a description of the column headings for this file.

Mapping of the 837 HIPAA version to the UB-92 version 6.0 is listed as item 1 under “intermediaries” at <http://cms.hhs.gov/providers/edi/hipaadoc.asp>.

Also available at <http://cms.hhs.gov/providers/edi/hipaadoc.asp> listed as item 8 under “intermediaries” is the Implementation Guide Editing Document.

The implementation guide for the claim transaction is located at:
<http://cms.hhs.gov/providers/edi/837a3a01.pdf>.

30 - Coordination of Benefits

(Rev. 1, 10-01-03)

A-00-89, A-01-20, B-01-06

The outbound COB transaction is a post-adjudicative transaction. This transaction includes the incoming claim data as well as COB data. Contractors are required to receive all possible data on the incoming 837 although they need not process non-Medicare data. However, contractor shared systems must store that data in a store-and-forward repository (SFR). This repository file will be designed and maintained by the contractor's shared system.

This data must be reassociated with Medicare claim and payment data in order to create an IG compliant outbound COB transaction using as output the Medicare Part A Claim/COB flat file.

Each contractor's shared system uses post-adjudicated Medicare data (data used from history and reference files to adjudicate the claim) instead of data received when building the outbound COB transaction. Its shared system must retain the data in the SFR for a minimum of 6 months.

The Medicare Part A Claim/COB flat file is the format FIs use to reassociate all data required to map to the COB transaction. The FI translator builds the FI's outbound COB transaction from the Medicare Part A Claim/COB flat file.

The FI translator will build the FI's outbound COB transaction from the Medicare Part A Claim/COB flat file.

FIs need not process an incoming X12 997. They may create and use their own proprietary report(s) for feedback purposes.

30.1 - Transmission Mode - Outbound ANSI X12N 837 COB Transaction

A-01-20, B-01-06

(Rev. 1, 10-01-03)

The CMS recommends that contractors send the outbound ANSI X12N 837 COB transaction over a wire connection. However, contractors may send tape or diskettes to those trading partners that do not wish to receive transmissions via wire. They and their COB trading partners must reach agreement on telecommunication protocols. It is each contractor's choice as to whether it wishes to process the X12 997 Functional Acknowledgment from its COB trading partners.

30.2 - External Keyshop or Imaging Processing

(Rev. 1, 10-01-03)

A-01-20

Data on claims that contractors receive from their keyshop or OCR/ICR may not be included on a particular contractor's SFR, depending on that contractor's shared system design. Contractors create their X12N-based flat file using data available from claim history and reference files. Since some data is not available on these "paper" claims, the outbound ANSI X12N 837 COB is built as a "minimum" data set. It contains all "required" ANSI X12N 837 COB segments and post-adjudicated Medicare data.

30.3 - Summary of Process

(Rev. 1, 10-01-03)

A-01-20, B-01-06

The following summarizes all the steps from receipt of the incoming claim to creation of the outbound COB:

- Contractor's translator performs syntax edits and maps incoming claim data to the ANSI X12N flat file;
- Shared system creates implementation guide and Medicare edits for the flat file data;
- Medicare data on ANSI X12N flat file is mapped to the core system;

NOTE: There are no changes in core system data fields or field sizes.

- Non-Medicare data (and Medicare data elements where field sizes are in excess of the core system) are written to the SFR; and
- Adjudicated data is combined with repository data to create the outbound COB.

30.4 - Generating an Outbound Coordination of Benefits (COB) ANSI X12N 837 (HIPAA version) When Required Data is Missing or Invalid

(Rev. 1, 10-01-03)

AB-02-054

An inbound claim received on paper or in a non-HIPAA version electronic format could lack data elements, or contain data that do not meet the data attribute (alpha-numeric, numeric, minimum and maximum lengths, etc.) requirements needed to prepare a HIPAA-compliant outbound ANSI X12N 837 COB transaction. In most cases, claims

with invalid data are rejected, but in limited cases, a claim that lacks some requirements needed to build a HIPAA-compliant outbound ANSI X12N 837 COB transaction could be accepted and adjudicated. A contractor may also receive data from the Common Working File that may not meet the ANSI X12N 837 HIPAA version IG requirements for COB. Electronic COB transactions issued by Medicare must adhere to the data attribute requirements in the IG to be HIPAA-compliant. The flat file created by each contractor's shared system for COB must have all of the required and applicable conditional data elements that FIs need in order to produce a HIPAA-compliant ANSI X12N 837 outbound COB transaction.

To remedy this, each contractor's shared system must "gap fill" data when issuing an outbound ANSI X12N 837 (HIPAA version) COB transaction, unless data is available from history, store and forward repository (SFR) or reference files. To "gap fill," the contractor's shared system maintainer must enter meaningless character(s) that meet the data element minimum length requirement of an outbound ANSI X12N 837 COB transaction if insufficient data are available for entry in a required data element. Each shared system coordinates with their users to determine which characters will be used to gap fill required data elements in this situation. The selected meaningless character(s) must be useable with every type of data where this situation could occur, e.g., with alpha-numeric (AN), decimal (R), identifier (ID), date (DT), and other data types as appropriate. The values may not include any special characters, low values, high values, or all spaces since this could cause problems with a contractor's receiving trading partner's translator. Each contractor must share this information with its trading partners to alert them as to when and why these characters will appear in an outgoing transaction.

30.5 - Outreach

(Rev. 1, 10-01-03)

A-01-20

Contractors notify their providers, third party provider billing agents, provider clearinghouses, and the COB trading partners with whom they interact electronically for Medicare that:

- Medicare neither issues non-837 HIPAA version COB transactions nor accepts non-837 HIPAA version electronic claims;
- Each provider that has elected to submit claims electronically must submit all of their claims in compliance with the IG requirements. Vendors that submit electronic claims for Medicare providers must also comply with the IG requirements;
- Each trading partner that has elected to exchange COB electronically must accept the IG claim format, or contract with a clearinghouse to translate their claim data into the IG format, they must furnish that clearinghouse all data required by the IG;

- A provider, provider agent, trading partner, or clearinghouse that elects to use a clearinghouse for translation services is liable for those costs;
- The IG and ANSI X12N data dictionary can be downloaded without charge from http://www.wpc-edi.com/hipaa/HIPAA_40.asp;
- If an EDI submitter is using a vendor, clearinghouse, or billing service to generate a certain transaction and that entity has passed testing requirements for a specific transaction and is using the same program to generate the transaction for all of their clients, then only clients designated by the vendor/clearinghouse/billing service must test prior to FI acceptance of production data;
- COB trading partners must have either requested system compatibility testing for use of the ANSI X12N 837 COB prior to October 2003 or be confident that they have completed system changes as required to accept production ANSI X12N 837 COB transactions by October 2003. Any trading partner that prefers to have COB testing conducted prior to transmission of production data must have completed testing before October 2003. Trading partners either accept production ANSI X12N 837 COB transactions starting October 2003, or advise their contractor that they are terminating their COB agreement;
- Contractors must be pro-active to assure that providers, agents, clearinghouses, and trading partners are furnished adequate information for them to understand the impact of the HIPAA Administrative Simplification requirements, as implemented by Medicare, on their operations. Contractors are not expected to furnish providers or others with in-depth training on use and interpretation of the ANSI X12N 837 for incoming claims and COB. However, they must furnish appropriate information in regularly scheduled provider bulletins/newsletters, in other provider educational publications during their regularly scheduled provider educational seminars, and in correspondence with COB trading partners to enable those individuals and entities to make educated and timely decisions to plan their reaction to the HIPAA standards as implemented by Medicare.

50 - Uniform Bill - Form CMS-1450

(Rev. 1, 10-01-03)

50.1 - Uniform Billing with Form CMS-1450

(Rev. 1, 10-01-03)

A3-3604, HO-460, SNF-560, HH-475, OPT-416, RDF-320, HSP-302

This form, also known as the UB-92, is a uniform institutional provider bill suitable for use in billing multiple third party payers. Because it serves many payers, a particular payer may not need some data elements. The National Uniform Billing Committee (NUBC) maintains lists of approved coding for the form. All items on Form CMS-1450

are described. The FI must be able to capture all NUBC-approved input data for audit trail purposes and be able to pass all data to other payers with whom it has a coordination of benefits agreement.

50.2 - Disposition of Copies of Completed Forms

(Rev. 1, 10-01-03)

HO-431.1, HH-422

The provider retains the copy designated “Institution Copy” and submits the remaining copies of the completed Form CMS-1450 to its FI, HMO or other insurer. Where it knows that the HMO will pay the bill, it sends the bill and any necessary supporting documentation directly to the HMO for coverage determination, payment, and/or denial action. It sends to the FI bills that it knows will be paid and processed by the FI and bills where it is unsure who has jurisdiction. If it is sending HMO bills, it marks the envelope “HMO BILLS.” It includes **only** HMO bills in such an envelope.

60 - General Instructions for Completion of Form CMS-1450 for Billing

(Rev. 81, 02-06-04)

A3-3604, HO-461, SNF-560, HH-475, OPT-416, RDF-320, HSP-302, A-03-032, A-03-059, R1894A3

This section details only the data elements that are required for Medicare billing. When billing multiple third parties, the provider would complete all items required by each payer who is to receive a copy.

Instructions for completion are the same for inpatient and outpatient claims unless otherwise noted. If required data is omitted, the FI obtains it from the provider or other sources and maintains it on its history record. The FI need not search paper files to annotate missing data unless it does not have an electronic history record. It need not obtain data that is not needed to process the claim.

Data elements in the CMS uniform electronic billing specifications are consistent with the Form CMS-1450 data set to the extent that one processing system can handle both. Definitions are identical. In some situations, the electronic record contains more characters than the corresponding item on the form because of constraints on the form size not applicable to the electronic record. Also, for a few data elements not used by Medicare, conversion may be needed from an alpha code to a numeric, but these do not affect Medicare processing. The revenue coding system is the same for both the Form CMS-1450 and the electronic specifications.

Effective June 5, 2000, CMS extended the claim size to 450 lines. For the hard copy UB-92 or Form CMS-1450, this simply means that the FI accepts claims of up to 9 pages. For the electronic format (the UB-92 Flat File), the new requirements are described on the CMS Web page at <http://cms.hhs.gov/providers/edi/ub92v6.rtf>.

Effective October 16, 2003, all state fields are discontinued and reclassified as reserved for national assignment.

Form Locator (FL) 1 - (Untitled) Provider Name, Address, and Telephone Number

Required. The minimum entry is the provider name, city, State, and ZIP code. The post office box number or street name and number may be included. The State may be abbreviated using standard post office abbreviations. Five or nine-digit ZIP codes are acceptable. This information is used in connection with the Medicare provider number (FL 51) to verify provider identity. Phone and/or Fax numbers are desirable.

FL 2 - (Untitled)

Not Required. *Previously reserved for State Use. Discontinued Effective October 16, 2003.*

FL 3 - Patient Control Number

Required. The patient's unique alpha-numeric control number assigned by the provider to facilitate retrieval of individual financial records and posting payment may be shown if the provider assigns one and needs it for association and reference purposes.

FL 4 - Type of Bill

Required. This three-digit alpha-numeric code gives three specific pieces of information. The first digit identifies the type of facility. The second classifies the type of care. The third indicates the sequence of this bill in this particular episode of care. It is referred to as a "frequency" code.

Code Structure

1st Digit-Type of Facility

1. Hospital
2. Skilled Nursing
3. Home Health (Includes Home Health PPS claims, for which CMS determines whether the services are paid from the Part A Trust Fund or the Part B Trust Fund.)
4. Religious Nonmedical (Hospital)
5. Religious Nonmedical (Extended Care)
6. Intermediate Care

7. Clinic or Hospital Based Renal Dialysis Facility (requires special information in second digit below).
8. Special facility or hospital ASC surgery (requires special information in second digit below).
9. Reserved for National Assignment

2nd Digit-Bill Classification (Except Clinics and Special Facilities)

1. Inpatient (Part A)
2. Inpatient (Part B) - (For HHA non PPS claims, Includes HHA visits under a Part B plan of treatment, for HHA PPS claims, indicates a Request for Anticipated Payment - RAP.) Note: For HHA non PPS claims, CMS determines from which Trust Fund payment is made. Therefore, there is no need to indicate Part A or Part B on the bill.
3. Outpatient (For non-PPS HHAs, includes HHA visits under a Part A plan of treatment and use of HHA DME under a Part A plan of treatment). For home health agencies paid under PPS, CMS determines from which Trust Fund, Part A or Part B. Therefore, there is no need to indicate Part A or Part B on the bill.
4. Other (Part B) - Includes HHA medical and other health services not under a plan of treatment, hospital and SNF for diagnostic clinical laboratory services for “nonpatients,” and referenced diagnostic services. For HHAs under PPS, indicates an osteoporosis claim.
5. Intermediate Care - Level I
6. Intermediate Care - Level II
7. Subacute Inpatient (Revenue Code 019X required)
8. Swing Bed (may be used to indicate billing for SNF level of care in a hospital with an approved swing bed agreement).
9. Reserved for National Assignment

2nd Digit-Classification (Clinics Only)

1. Rural Health Clinic (RHC)
2. Hospital Based or Independent Renal Dialysis Facility
3. Free Standing Provider-Based Federally Qualified Health Center (FQHC)
4. Other Rehabilitation Facility (ORF)

5. Comprehensive Outpatient Rehabilitation Facility (CORF)
6. Community Mental Health Center (CMHC)
- 7-8. Reserved for National Assignment
9. OTHER

2nd Digit-Classification (Special Facilities Only)

1. Hospice (Nonhospital Based)
2. Hospice (Hospital Based)
3. Ambulatory Surgical Center Services to Hospital Outpatients
4. Free Standing Birthing Center
5. Critical Access Hospital
- 6-8. Reserved for National Assignment
9. OTHER

3rd Digit-Frequency - Definition

A	Admission/Election Notice	Used when the hospice or Religious Nonmedical Health Care Institution is submitting Form CMS-1450 as an Admission Notice.
B	Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution Termination/Revocation Notice	Used when the Form CMS-1450 is used as a notice of termination/revocation for a previously posted Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution election.
C	Hospice Change of Provider Notice	Used when Form CMS-1450 is used as a Notice of Change to the hospice provider.
D	Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution Void/Cancel	Used when Form CMS-1450 is used as a Notice of a Void/Cancel of Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution election.
E	Hospice Change of Ownership	Used when Form CMS-1450 is used as a Notice of Change in Ownership for the hospice.

	Ownership	Change in Ownership for the hospice.
F	Beneficiary Initiated Adjustment Claim	Used to identify adjustments initiated by the beneficiary. For FI use only.
G	CWF Initiated Adjustment Claim	Used to identify adjustments initiated by CWF. For FI use only.
H	CMS Initiated Adjustment Claim	Used to identify adjustments initiated by CMS. For FI use only.
I	FI Adjustment Claim (Other than QIO or Provider	Used to identify adjustments initiated by the FI. For FI use only
J	Initiated Adjustment Claim-Other	Used to identify adjustments initiated by other entities. For FI use only.
K	OIG Initiated Adjustment Claim	Used to identify adjustments initiated by OIG. For FI use only.
M	MSP Initiated Adjustment Claim	Used to identify adjustments initiated by MSP. For FI use only. Note: MSP takes precedence over other adjustment sources.
P	QIO Adjustment Claim	Used to identify an adjustment initiated as a result of a QIO review. For FI use only.
0	Nonpayment/Zero Claims	Provider uses this code when it does not anticipate payment from the payer for the bill, but is informing the payer about a period of non-payable confinement or termination of care. The “Through” date of this bill (FL 6) is the discharge date for this confinement, or termination of the plan of care. Medicare requires “nonpayment” bills only to extend the spell-of-illness in inpatient cases. Other nonpayment bills are not needed and may be returned to the provider.
1	Admit Through Discharge Claim	The provider uses this code for a bill encompassing an entire inpatient confinement or course of outpatient treatment for which it expects payment from the payer or which will update deductible for inpatient or Part B claims when Medicare is secondary to an EGHP.
2	Interim-First Claim	Used for the first of an expected series of bills for which utilization is chargeable or which will update inpatient deductible for the same

		confinement of course of treatment. For HHAs, used for the submission of original or replacement RAPs.
3	Interim-Continuing Claims (Not valid for PPS Bills)	Use this code when a bill for which utilization is chargeable for the same confinement or course of treatment had already been submitted and further bills are expected to be submitted later.
4	Interim-Last Claim (Not valid for PPS Bills)	This code is used for a bill for which utilization is chargeable, and which is the last of a series for this confinement or course of treatment. The “Through” date of this bill (FL 6) is the discharge for this treatment.
5	Late Charge Only	Used for outpatient claims only. Late charges are not accepted for Medicare inpatient, home health, or Ambulatory Surgical Center (ASC) claims.
7	Replacement of Prior Claim	This is used to correct a previously submitted bill. The provider applies this code to the corrected or “new” bill.
8	Void/Cancel of a Prior Claim	The provider uses this code to indicate this bill is an exact duplicate of an incorrect bill previously submitted. A code “7” (Replacement of Prior Claim) is being submitted showing corrected information.
9	Final Claim for a Home Health PPS Episode	This code indicates the HH bill should be processed as a debit or credit adjustment to the request for anticipated payment.

Bill Type Codes and Allowable Provider Numbers

A3-3873.2, R1887A3

The following table lists “Type of Bill,” FL4, codes by Provider Number Range(s). For a definition of each facility type, see the Medicare State Operations Manual.

Bill Type Code	Provider Number Range(s)
11X Hospital Inpatient (Part A)	0001-0879, 1225-1299, 2000-2499, 3025-3099, 3300-3399, 4000-4499, S001-S999, T001-T999
12X Hospital Inpatient Part B	Same as 11X

13X	Hospital Outpatient	Same as 11X
14X	Hospital Other Part B	Same as 11X
18X	Hospital Swing Bed	U001-U999, W001-W999, Y001-Y999, Z001-Z999
21X	SNF Inpatient	5000-6499
22X	SNF Inpatient Part B	5000-6499
23X	SNF Outpatient	5000-6499
28X	SNF Swing Bed	5000-6499
32X	Home Health	7000-7999, 8000-8499, 9000-9499
33X	Home Health	7000-7999, 8000-8499, 9000-9499
34X	Home Health (Part B Only)	7000-7999, 8000-8499, 9000-9499
41X	Religious Nonmedical Health Care Institutions	1990-1999
71X	Clinical Rural Health	3400-3499, 3800-3999, 8500-8999
72X	Clinic ESRD	2300-2399, 3500-3799
73X	Federally Qualified Health Centers	1800-1989
74X	Clinic OPT	6500-6989
75X	Clinic CORF	3200-3299, 4500-4599, 4800-4899
76X	Community Mental Health Centers	1400-1499, 4600-4799, 4900-4999
81X	Nonhospital based hospice	1500-1799
82X	Hospital based hospice	1500-1799
83X	Hospital Outpatient (ASC)	Same as 11X
85X	Critical Access Hospital	1300-1399

FL 5 - Federal Tax Number

Not Required.

FL 6 - Statement Covers Period (From-Through)

Required. The provider enters the beginning and ending dates of the period included on this bill in numeric fields (MMDDYY). Days before the patient's entitlement are not shown. With the exception of home health PPS claims, the period may not span two accounting years. The FI uses the "From" date to determine timely filing.

FL 7 - Covered Days

Required for inpatient. The provider enters the total number of covered days during the billing period applicable to the cost report, including lifetime reserve days elected for which it requested Medicare payment. This should be the total of accommodation units reported in FL 46. It excludes any days classified as noncovered as defined in FL 8, leave of absence days, and the day of discharge or death.

If the FI makes an adverse coverage decision, it enters the number of covered days through the last date for which program payment can be made. If "Limitation on Liability" provisions apply, see Chapter 30.

The provider may not deduct any days for payment made under Workers Compensation (WC), automobile medical, no-fault, liability insurance, an EGHP for an ESRD beneficiary, employed beneficiaries and spouses age 65 or over or a LGHP for disabled beneficiaries. The FI calculates utilization based upon the amount Medicare will pay and makes the necessary utilization adjustment. (See Chapter 28.)

See Chapter 3 for the special situations requiring that no program payment bills show an entry of covered days in FL 7.

See Chapter 3 if the hospital is being paid under PPS.

The FI enters the number of days shown in this FL in the cost report days field on the UB-92 CWF record. However, when the other insurer has paid in full, the FI enters zero days in the utilization days on the UB-92 CWF record. For MSP cases only, it calculates utilization based upon the amount Medicare pays and enters the utilization days chargeable to the beneficiary in the utilization days field on the UB-92 CWF record.

For a discussion of how to determine whether part of a day is covered, see Chapter 3.

FL 8 - Noncovered Days

Required for inpatient. The provider enters the total number of noncovered days in the billing period that it **cannot** claim as Medicare patient days on the cost report; and that Medicare will not charge to the beneficiary as utilization of Part A services.

Noncovered days include:

- Days for which no Part A payment can be made because the services rendered were furnished without cost or will be paid for by the VA. (See Chapter 28.)
- Days for which no Part A payment can be made because payment will be made under a National Institutes of Health grant;

Days after the date covered services ended, such as noncovered level of care, or emergency services after the emergency has ended in nonparticipating institutions;

- Days for which no Part A payment can be made because the patient was on a leave of absence and was not in the hospital.
- Days for which no Part A payment can be made because a hospital whose provider agreement has terminated, expired, or been cancelled may be paid only for covered inpatient services during the limited period following such termination, expiration, or cancellation. All days after the expiration of the period are noncovered. See Chapter 3 for determining the effective date of the limited period and for billing for Part B services; and
- Days after the time limit when utilization is not chargeable because the beneficiary is at fault. (See Chapter 28.)

The hospital must give a brief explanation of any noncovered days not described in the occurrence codes in FL 84. It must show the number of days for **each** category of noncovered days (e.g., “5 leave days”).

NOTE: Day of discharge or death is not counted as a noncovered day.

The CMS policy is, where practical, for providers to bill Medicare on the same basis that they bill other payers to provide consistency of bill data with the cost report, so that bill data may be used to substantiate the cost report.

The hospital must always bill laboratory tests (revenue codes 0300-0319) net for outpatient or inpatient bills because payment is based on the lower of charges for the hospital component or the fee schedule. The FI will inform the hospital whether to bill net or gross for each revenue center other than lab.

The hospital must bill the physician component in all cases to the carrier to obtain payment for physician’s services.

FL 9 - Coinsurance Days

Required for inpatient. The provider enters the total number of covered inpatient hospital days occurring after the 60th day and before the 91st day or the number of covered inpatient SNF days occurring after the 20th day and before the 101st day of the benefit period as shown for this billing period.

FL 10 - Lifetime Reserve Days

Required. Lifetime reserve days are not charged where the average daily charge is less than the lifetime reserve coinsurance amount. The average daily charge consists of charges for all covered services furnished after the 90th day in the benefit period and through the end of the billing period.

The hospital must notify the patient of the patient's right to elect not to use lifetime reserve days before billing the program for inpatient hospital services furnished after the 90th day in the spell of illness.

See Chapter 3 for special considerations in election of lifetime reserve days when paid under PPS.

FL11 - (Untitled)

Not Required. This is one of 7 fields that have not been assigned for national use. Use of the field, if any, is assigned by the SUBC and is uniform within a State.

FL 12 - Patient's Name

Required. The provider enters the patient's last name, first name, and, if any, middle initial.

FL 13 - Patient's Address

Required. The provider enters the patient's full mailing address, including street number and name, post office box number or RFD, city, State, and Zip code.

FL 14 - Patient's Birth Date

Required. The provider enters the month, day, and year of birth (MMDDCCYY) of patient. If it does not obtain the date of birth after reasonable efforts, it zero fills the field.

FL 15 - Patient's Sex

Required. The provider enters an "M" for male or an "F" for female. This item is used in conjunction with FLs 67-81 (diagnoses and surgical procedures) to identify inconsistencies.

FL 16 - Patient's Marital Status

Not Required for Medicare claims but must accept all valid values under HIPAA.

Valid Values are : S=Single

M=Married

P=Life Partner

X=Legally Separated

D=Divorced

W=Widowed

U=Unknown

FL 17 - Admission Date

Required For Inpatient and Home Health. The hospital enters the date the patient was admitted for inpatient care (MMDDYY). The HHA enters the same date of admission that was submitted on the RAP for the episode (MM-DD-YY).

FL 18 - Admission Hour

Not Required.

FL 19 - Type of Admission/Visit

Required on inpatient bills only. This is the code indicating priority of this admission.

Code Structure:

- 1 Emergency - The patient required immediate medical intervention as a result of severe, life threatening or potentially disabling conditions. Generally, the patient was admitted through the emergency room.
- 2 Urgent- The patient required immediate attention for the care and treatment of a physical or mental disorder. Generally, the patient was admitted to the first available, suitable accommodation.
- 3 Elective - The patient's condition permitted adequate time to schedule the availability of a suitable accommodation.

- 4 Newborn - Use of this code necessitates the use of a Special Source of Admission codes.
- 5 Trauma Center - Visits to a trauma center/hospital as licensed or designated by the state or local government authority authorized to do so, or as verified by the American College of surgeons and involving a trauma activation.
- 9 Information Not Available - Visits to a trauma center/hospital as licensed or designated by the state or local government authority authorized to do so, or verified by the American College of Surgeons and involving a trauma activation.

FL 20 - Source of Admission

Required For Inpatient Hospital. The provider enters the code indicating the source of this admission or outpatient registration.

Code Structure (For Emergency, Elective, or Other Type of Admission):

- | | | |
|---|--------------------------|--|
| 1 | Physician Referral | <p>Inpatient: The patient was admitted to this facility upon the recommendation of their personal physician.</p> <p>Outpatient: The patient was referred to this facility for outpatient or referenced diagnostic services by their personal physician or the patient independently requested outpatient services (self-referral).</p> |
| 2 | Clinic Referral | <p>Inpatient: The patient was admitted to this facility upon the recommendation of this facility's clinic physician.</p> <p>Outpatient: The patient was referred to this facility for outpatient or referenced diagnostic services by this facility's clinic or other outpatient department physician.</p> |
| 3 | HMO Referral | <p>Inpatient: The patient was admitted to this facility upon the recommendation of a HMO physician.</p> <p>Outpatient: The patient was referred to this facility for outpatient or referenced diagnostic services by a HMO physician.</p> |
| 4 | Transfer from a Hospital | <p>Inpatient: The patient was admitted to this facility as a transfer from an acute care facility where they were an inpatient</p> <p>Outpatient: The patient was referred to this facility for outpatient or referenced diagnostic services by a physician of another acute care facility.</p> |

- 5 Transfer from a SNF **Inpatient:** The patient was admitted to this facility as a transfer from a SNF where they were an inpatient.
- Outpatient:** The patient was referred to this facility for outpatient or referenced diagnostic services by a physician of the SNF where they are an inpatient.

FL 21 - Discharge Hour

Not Required.

FL22 - Patient Status

Required. (For all Part A inpatient, SNF, hospice, home health agency (HHA) and outpatient hospital services.) This code indicates the patient's status as of the "Through" date of the billing period (FL 6).

Code	Structure
01	Discharged to home or self care (routine discharge)
02	Discharged/transferred to another short-term general hospital
03	Discharged/transferred to SNF-see Code 61 below
04	Discharged/transferred to an ICF
05	Discharged/transferred to another type of institution (including distinct part) or referred to another institution.
06	Discharged/transferred to home under care of organized home health service organization
07	Left against medical advice or discontinued care
08	Discharged/transferred to home under care of a home IV drug therapy provider
*09	Admitted as an inpatient to this hospital
20	Expired (or did not recover - Religious Non Medical Health Care Patient)
30	Still patient or expected to return for outpatient services
40	Expired at home (Hospice claims only)
41	Expired in a medical facility, such as a hospital, SNF, ICF or freestanding hospice (Hospice claims only)

Code	Structure
	hospice (Hospice claims only)
42	Expired - place unknown (Hospice claims only)
43	Discharged/transferred to a Federal hospital (effective for discharges after October 1, 2003)
44-49	Reserved for national assignment
50	Discharged/transferred to Hospice - home
51	Discharged/transferred to Hospice - medical facility

73-99	Reserved for national assignment

*In situations where a patient is admitted before midnight of the third day following the day of an outpatient diagnostic service or service related to the reason for the admission, the outpatient services are considered inpatient. Therefore, code 09 would apply only to services that began longer than 3 days earlier or were unrelated to the reason for admission, such as observation following outpatient surgery, which results in admission.

FL 23 - Medical Record Number

Required. The provider enters the number assigned to the patient's medical/health record. The FI must carry the medical record number through the FI system and return it to the provider.

FLs 24, 25, 26, 27, 28, 29, 30 - Condition Codes

Required. The provider enters the corresponding code to describe any of the following conditions that apply to this billing period.

Code	Title	Definition
02	Condition is Employment Related	Patient alleges that the medical condition causing this episode of care is due to environment/events resulting from the patient's employment. (See Chapter 28.)
03	<i>Patient Covered by Insurance Not Reflected Here</i>	<i>Indicates that patient/patient representative has stated that coverage may exist beyond that reflected on this bill.</i>
04	<i>Information Only Bill</i>	<i>Indicates bill is submitted for informational purposes only. Examples would include a bill submitted as a utilization report, or a bill for a beneficiary who is enrolled in a risk-based managed care plan (such as Medicare+Choice) and the hospital expects to receive payment from the plan.</i>
05	Lien Has Been Filed	The provider has filed legal claim for recovery of funds potentially due to a patient as a result of legal action initiated by or on behalf of a patient.
06	ESRD Patient in the First 18 Months of Entitlement Covered By Employer Group Health Insurance	Medicare may be a secondary insurer if the patient is also covered by employer group health insurance during the patient's first 18 month of end stage renal disease entitlement.
07	Treatment of Non-terminal Condition for Hospice Patient	The patient has elected hospice care, but the provider is not treating the patient for the terminal condition and is, therefore, requesting regular Medicare payment.

Code	Title	Definition
08	Beneficiary Would Not Provide Information Concerning Other Insurance Coverage	The beneficiary would not provide information concerning other insurance coverage. The FI develops to determine proper payment. (See Chapter 28 for development guidelines.)
09	Neither Patient Nor Spouse is Employed	In response to development questions, the patient and spouse have denied employment.
10	Patient and/or Spouse is Employed but no EGHP Coverage Exists	In response to development questions, the patient and/or spouse indicated that one or both are employed but have no group health insurance under an EGHP or other employer sponsored or provided health insurance that covers the patient.
11	Disabled Beneficiary But no Large Group Health Plan (LGHP)	In response to development questions, the disabled beneficiary and/or family member indicated that one or more are employed, but have no group coverage from an LGHP.
12-14	Payer Codes	Codes reserved for internal use only by third party payers. The CMS will assign as needed for FI use. Providers will not report.
15	Clean Claim Delayed in CMS's Processing System (Medicare Payer Only Code)	The claim is a clean claim in which payment was delayed due to a CMS processing delay. Interest is applicable, but the claim is not subject to CPEP/CPT standards. (See Chapter 1.)
16	SNF Transition Exemption (Medicare Payer Only Code)	An exemption from the post-hospital requirement applies for this SNF stay or the qualifying stay dates are more than 30 days prior to the admission date.
17	<i>Patient is Homeless</i>	<i>The patient is homeless.</i>
18	<i>Maiden Name Retained</i>	<i>A dependent spouse entitled to benefits who does not use her husband's last name.</i>
19	<i>Child Retains Mother's Name</i>	<i>A patient who is a dependent child entitled to benefits that does not have its father's last name.</i>

Code	Title	Definition
20	Beneficiary Requested Billing	<i>Provider realizes services are noncovered level of care or excluded, but beneficiary requests determination by payer. (Currently limited to home health and inpatient SNF claims.)</i>
21	Billing for Denial Notice	The provider realizes services are at a noncovered level or excluded, but it is requesting a denial notice from Medicare in order to bill Medicaid or other insurers.
26	VA Eligible Patient Chooses to Receive Services In a Medicare Certified Facility	Patient is VA eligible and chooses to receive services in a Medicare certified facility instead of a VA facility.
27	Patient Referred to a Sole Community Hospital for a Diagnostic Laboratory Test	(Sole Community Hospitals only). The patient was referred for a diagnostic laboratory test. The provider uses this code to indicate laboratory service is paid at 62 percent fee schedule rather than 60 percent fee schedule.
28	Patient and/or Spouse's EGHP is Secondary to Medicare	In response to development questions, the patient and/or spouse indicated that one or both are employed and that there is group health insurance from an EGHP or other employer-sponsored or provided health insurance that covers the patient but that either: (1) the EGHP is a single employer plan and the employer has fewer than 20 full and part time employees; or (2) the EGHP is a multi or multiple employer plan that elects to pay secondary to Medicare for employees and spouses aged 65 and older for those participating employers who have fewer than 20 employees.

Code	Title	Definition
29	Disabled Beneficiary and/or Family Member's LGHP is Secondary to Medicare	In response to development questions, the patient and/or family member(s) indicated that one or more are employed and there is group health insurance from an LGHP or other employer-sponsored or provided health insurance that covers the patient but that either: (1) the LGHP is a single employer plan and the employer has fewer than 100 full and part time employees; or (2) the LGHP is a multi or multiple employer plan and that all employers participating in the plan have fewer than 100 full and part-time employees.
30	Qualifying Clinical Trials	Non-research services provided to all patients, including managed care enrollees, enrolled in a Qualified Clinical Trial.
31	Patient is a Student (Full-Time - Day)	Patient declares that they are enrolled as a full-time day student.
32	Patient is a Student (Cooperative/Work Study Program)	Patient declares that they are enrolled in a cooperative/work study program.
33	Patient is a Student (Full-Time - Night)	Patient declares that they are enrolled as a full-time night student.
34	Patient is a Student (Part-Time)	Patient declares that they are enrolled as a part-time student.

Accommodations

35	Reserved for National Assignment	Reserved for National Assignment.
36	General Care Patient in a Special Unit	<p>(Not used by hospitals under PPS.) The hospital temporarily placed the patient in a special care unit because no general care beds were available.</p> <p>Accommodation charges for this period are at the prevalent semi-private rate.</p>

Code	Title	Definition
37	Ward Accommodation at Patient's Request	(Not used by hospitals under PPS.) The patient was assigned to ward accommodations at their own request. This must be supported by a written request in the provider's files. (See the Benefit Policy Manual, Chapter 1.)
38	Semi-private Room Not Available	(Not used by hospitals under PPS.) Either private or ward accommodations were assigned because semi-private accommodations were not available.
<p>NOTE: If revenue charge codes indicate a ward accommodation was assigned and neither code 37 nor code 38 applies, and the provider is not paid under PPS, the provider's payment is at the ward rate. Otherwise, Medicare pays semi-private costs.</p>		
39	Private Room Medically Necessary	(Not used by hospitals under PPS.) The patient needed a private room for medical reasons.
40	Same Day Transfer	The patient was transferred to another participating Medicare provider before midnight on the day of admission.
41	Partial Hospitalization	The claim is for partial hospitalization services. For outpatient services, this includes a variety of psychiatric programs (such as drug and alcohol). (See the Benefit Policy Manual, Chapter 6 for a description of coverage.)
42	Continuing Care Not Related to Inpatient Admission	Continuing care plan is not related to the condition or diagnosis for which the individual received inpatient hospital services.
43	Continuing Care Not Provided Within Prescribed Post Discharge Window	Continuing care plan was related to the inpatient admission but the prescribed care was not provided within the post discharge window.

Code	Title	Definition
<i>44</i>	<i>Inpatient Admission Changed to Outpatient</i>	<i>For use on outpatient claims only, when the physician ordered inpatient services, but upon internal utilization review performed before the claim was originally submitted, the hospital determined that the services did not meet its inpatient criteria. Effective April 1, 2004</i>
<i>45</i>		<i>Reserved for national assignment</i>
<i>46</i>	<i>Non-Availability Statement on File</i>	<i>A nonavailability statement must be issued for each TRICARE claim for nonemergency inpatient care when the TRICARE beneficiary resides within the catchment area (usually a 40-mile radius) of a Uniformed Services Hospital.</i>
<i>47</i>		<i>Reserved for TRICARE</i>
<i>48</i>	<i>Psychiatric Residential Treatment Centers for Children and Adolescents (RTCs)</i>	<i>Code to identify claims submitted by a “TRICARE – authorized” psychiatric Residential Treatment Center (RTC) for Children and Adolescents.</i>
<i>49-54</i>		<i>Reserved for national assignment</i>
55	SNF Bed Not Available	The patient’s SNF admission was delayed more than 30 days after hospital discharge because a SNF bed was not available.
56	Medical Appropriateness	The patient’s SNF admission was delayed more than 30 days after hospital discharge because the patient’s condition made it inappropriate to begin active care within that period.
57	SNF Readmission	The patient previously received Medicare covered SNF care within 30 days of the current SNF admission.
58	Terminated Medicare+Choice Organization Enrollee	Code indicates that patient is a terminated enrollee in a Medicare+Choice Organization Plan whose three-day inpatient hospital stay was waived.

FL 31 - (Untitled)

Not Required. *Previously reserved for State Use. Discontinued Effective October 16, 2003.*

FL 32, 33, 34, and 35 - Occurrence Codes and Dates

Required. The provider enters code(s) and associated date(s) defining specific event(s) relating to this billing period. Event codes are two alpha-numeric digits, and dates are six numeric digits (MMDDYY). When occurrence codes 01-04 and 24 *are entered*, the provider must make sure the entry includes the appropriate value code in FLs 39-41, if there is another payer involved.

Fields 32A-35A must be completed before fields 32B-35B are used.

Occurrence and occurrence span codes are mutually exclusive. Occurrence codes have values from 01 through 69 and A0 through L9.

Occurrence span codes have values from 70 through 99 and M0 through Z9.

When FLs 36 A and B are fully used with occurrence span codes, FLs 34 A and B and 35 A and B may be used to contain the “From” and “Through” dates of other occurrence span codes. In this case, the code in FL 34 is the occurrence span code and the occurrence span “From” dates is in the date field. FL 35 contains the same occurrence span code as the code in FL 34, and the occurrence span “Through” date is in the date field.

Other payers may require other codes, and while Medicare does not use them, they may be entered on the bill if convenient.

Code Structure (Only codes affecting Medicare payment/processing are shown.)

39	<i>Date discharged on a continuous course of IV therapy</i>	<i>Date the patient was discharged from the hospital on a continuous course of IV therapy. (Home IV providers- bill type 85X).</i>
40	<i>Scheduled Date of Admission</i>	<i>The date on which a patient will be admitted as an inpatient to the hospital. (This code may only be used on an outpatient claim.)</i>
41	Date of First Test for Pre-admission Testing	The date on which the first outpatient diagnostic test was performed as a part of a PAT program. This code may be used only if a date of admission was scheduled prior to the administration of the test(s).

Code	Title	Definition
42	Date of Discharge	(Hospice claims only.) The date on which a beneficiary terminated their election to receive hospice benefits from the facility rendering the bill. See Chapter 11. The frequency digit (3rd digit, FL 4, Type of Bill) should be 1 or 4.
43	Scheduled Date of Cancelled Surgery	The date for which ambulatory surgery was scheduled.
44	Date Treatment Started for Occupational Therapy	The date the provider initiated services for occupational therapy.
45	Date Treatment Started for Speech Therapy	The date the provider initiated services for speech therapy.
46	Date Treatment Started for Cardiac Rehabilitation	The date the provider initiated services for cardiac rehabilitation.
47	Date Cost Outlier Status Begins	Code indicates that this is the first day the inpatient cost outlier threshold is reached. For Medicare purposes, a beneficiary must have regular coinsurance and/or lifetime reserve days available beginning on this date to allow coverage of additional daily charges for the purpose of making cost outlier payments.
48-49	Payer Codes	For use by third party payers only. The CMS assigns for FI use. Providers do not report these codes.
<i>50-69</i>		<i>Reserved for State Assignment. Discontinued Effective October 16, 2003.</i>
A1	Birth Date-Insured A	The birth-date of the insured in whose name the insurance is carried.
A2	Effective Date-Insured A Policy	The first date the insurance is in force.
A3	Benefits Exhausted	The last date for which benefits are available and after which no payment can be made by payer A.

FL 36 - Occurrence Span Code and Dates

Required For Inpatient.

The provider enters codes and associated beginning and ending dates defining a specific event relating to this billing period. Event codes are two alpha-numeric digits and dates are shown numerically as MMDDYY.

Code Structure

Code	Title	Definition
70	Qualifying Stay Dates	(Part A claims for SNF level of care only.) The From/Through dates for a hospital stay of at least 3 days that qualifies the patient for payment of the SNF level of care services billed on this claim.
70	Nonutilization Dates (For Payer Use on Hospital Bills Only)	The From/Through dates during a PPS inlier stay for which the beneficiary has exhausted all regular days and/or coinsurance days, but which is covered on the cost report.
71	Hospital Prior Stay Dates	(Part A claims only.) The From/Through dates given by the patient of any hospital stay that ended within 60 days of this hospital or SNF admission.
72	First/Last Visit	The actual dates of the first and last visits occurring in this billing period where these dates are different from those in FL 6, Statement Covers Period.
74	Noncovered Level of Care	The From/Through dates for a period at a noncovered level of care in an otherwise covered stay, excluding any period reported with occurrence span codes 76, 77, or 79. Codes 76 and 77 apply to most noncovered care. Used for leave of absence, or for repetitive Part B services to show a period of inpatient hospital care or outpatient surgery during the billing period. Also used for HHA or hospice services billed under Part A, But not valid for HHA under PPS.
75	SNF Level of Care	The From/Through dates for a period of SNF level of care during an inpatient hospital stay. Since QIOs no longer routinely review inpatient hospital bills for hospitals under PPS, this code is needed only in length of stay outlier cases (code “60” in FLs 24-30). It is not applicable to swing-bed hospitals that transfer patients from the hospital to a SNF level of care.

Code	Title	Definition
76	Patient Liability	The From/Through dates for a period of noncovered care for which the provider is permitted to charge the beneficiary. Codes should be used only where the FI or the QIO has approved such charges in advance and the patient has been notified in writing 3 days prior to the "From" date of this period. (See occurrence codes 31 and/or 32.)
77	Provider Liability- Utilization Charged	The From/Through dates of a period of care for which the provider is liable (other than for lack of medical necessity or custodial care). The beneficiary's record is charged with Part A days, Part A or Part B deductible and Part B coinsurance. The provider may collect the Part A or Part B deductible and coinsurance from the beneficiary.
78	SNF Prior Stay Dates	(Part A claims only.) The From/Through dates given to the hospital by the patient of any SNF stay that ended within 60 days of this hospital or SNF admission. An inpatient stay in a facility or part of a facility that is certified or licensed by the State solely below a SNF level of care does not continue a spell of illness and, therefore, is not shown in FL 36. (See Chapter 1)
79	Payer Code	THIS CODE IS SET ASIDE FOR PAYER USE ONLY. PROVIDERS DO NOT REPORT THIS CODE.
M0	QIO/UR Stay Dates	If a code "C3" is in FL 24-30, the provider enters the From and Through dates of the approved billing period.
M1	Provider Liability-No Utilization	Code indicates the From/Through dates of a period of noncovered care that is denied due to lack of medical necessity or as custodial care for which the provider is liable. The beneficiary is not charged with utilization. The provider may not collect Part A or Part B deductible or coinsurance from the beneficiary.

Code	Title	Definition
M2	Dates of Inpatient Respite Care	From/Through dates of a period of inpatient respite care for hospice patients.
M3	ICF Level of Care	The From/Through dates of a period of intermediate level of care during an inpatient hospital stay
M4	Residential Level of Care	The From/Through dates of a period of residential level of care during an inpatient stay
M5- WZ		Reserved for National Assignment

X0-ZZ

Reserved for state assignment. Discontinued, effective October 16, 2003

FL 37 - Internal Control Number (ICN)/Document Control Number (DCN)

Required. The provider enters the control number assigned to the original bill here. This field is used on adjustment requests (Bill Type, FL 4 = XX7). When requesting an adjustment to a previously processed claim, the provider inserts the ICN/DCN of the claim to be adjusted. Payer A's ICN/DCN should be shown on line "A" in FL 37. Similarly, the ICN/DCN for Payer B and C should be shown on lines B and C respectively, in FL 37.

FL 38 - (Untitled Except on Patient Copy of the Bill) Responsible Party Name and Address

Not Required. See Chapter 11 for hospice procedures. Space is provided for the provider to use a window envelope if it uses the patient's copy of the bill. For claims that involve payers of higher priority than Medicare, as defined in FL 58, the provider enters the address of the other payer in FL 84 (Remarks).

FLS 39, 40, and 41 - Value Codes and Amounts

Required. Code(s) and related dollar amount(s) identify data of a monetary nature that are necessary for the processing of this claim. The codes are two alpha-numeric digits, and each value allows up to nine numeric digits (0000000.00). Negative amounts are not allowed except in FL 41. Whole numbers or non-dollar amounts are right justified to the left of the dollars and cents delimiter. Some values are reported as cents, so the provider must refer to specific codes for instructions.

If more than one value code is shown for a billing period, codes are shown in ascending numeric sequence. There are four lines of data, line “a” through line “d.” The provider uses FLs 39A through 41A before 39B through 41B (i.e., it uses the first line before the second).

Code	Title	Definition
<i>01</i>	<i>Most Common Semi-Private Rate</i>	<i>To provide for the recording of hospital’s most common semi-private rate.</i>
<i>02</i>	<i>Hospital Has No Semi-Private Rooms</i>	<i>Entering this code requires \$0.00 amount.</i>
<i>03</i>		<i>Reserved for national assignment</i>
04	Inpatient Professional Component Charges Which Are Combined Billed	The sum of the inpatient professional component charges that are combined billed. Medicare uses this information in internal processes and also in the CMS notice of utilization sent to the patient to explain that Part B coinsurance applies to the professional component. (Used only by some all-inclusive rate hospitals.)
05	Professional Component Included in Charges and Also Billed Separately to Carrier	(Applies to Part B bills only.) Indicates that the charges shown are included in billed charges FL 47, but a separate billing for them will also be made to the carrier. For outpatient claims, these charges are excluded in determining the deductible and coinsurance due from the patient to avoid duplication when the carrier processes the bill for physician’s services. These charges are also deducted when computing interim payment. The hospital uses this code also when outpatient treatment is for mental illness, and professional component charges are included in FL 47.

Code	Title	Definition
06	Medicare Part A and Part B Blood Deductible	<p>The product of the number of unreplaced deductible pints of blood supplied times the charge per pint. If the charge per pint varies, the amount shown is the sum of the charges for each unreplaced pint furnished.</p> <p>If all deductible pints have been replaced, this code is not to be used.</p> <p>When the hospital gives a discount for unreplaced deductible blood, it shows charges after the discount is applied.</p>
07		<i>Reserved for national assignment</i>
08	Medicare Lifetime Reserve Amount in the First Calendar Year in Billing Period	<p>The product of the number of lifetime reserve days used in the first calendar year of the billing period times the applicable lifetime reserve coinsurance rate. These are days used in the year of admission. (See Chapter 3)</p>
09	Medicare Coinsurance Amount in the First Calendar Year in Billing Period	<p>The product of the number of coinsurance days used in the first calendar year of the billing period multiplied by the applicable coinsurance rate. These are days used in the year of admission. (See Chapter 3.) The provider may not use this code on Part B bills.</p> <p><i>For Part B coinsurance use value codes A2, B2 and C2.</i></p>

Code	Title	Definition
10	Medicare Lifetime Reserve Amount in the Second Calendar Year in Billing Period	The product of the number of lifetime reserve days used in the second calendar year of the billing period multiplied by the applicable lifetime reserve rate. The provider uses this code only on bills spanning 2 calendar years when lifetime reserve days were used in the year of discharge.
11	Medicare Coinsurance Amount in the Second Calendar Year in Billing Period	The product of the number of coinsurance days used in the second calendar year of the billing period times the applicable coinsurance rate. The provider uses this code only on bills spanning 2 calendar years when coinsurance days were used in the year of discharge. It may not use this code on Part B bills.
12	Working Aged Beneficiary Spouse With an EGHP	That portion of a higher priority EGHP payment made on behalf of an aged beneficiary that the provider is applying to covered Medicare charges on this bill. It enters six zeros (0000.00) in the amount field to claim a conditional payment because the EGHP has denied coverage. Where it received no payment or a reduced payment because of failure to file a proper claim, it enters the amount that would have been payable had it filed a proper claim. (See Chapter 28.)
13	ESRD Beneficiary in a Medicare Coordination Period With an EGHP	That portion of a higher priority EGHP payment made on behalf of an ESRD priority beneficiary that the provider is applying to covered Medicare charges on the bill. It enters six zeros (0000.00) in the amount field if it is claiming a conditional payment because the EGHP has denied coverage. Where it received no payment or a reduced payment because of failure to file a proper claim, it enters the amount that would have been payable had it filed a proper claim. (See Chapter 28.)

Code	Title	Definition
14	No-Fault, Including Auto/Other Insurance	That portion of a higher priority no-fault insurance payment, including auto/other insurance, made on behalf of a Medicare beneficiary, that the provider is applying to covered Medicare charges on this bill. It enters six zeros (0000.00) in the amount field if it is claiming a conditional payment because the other insurer has denied coverage or there has been a substantial delay in its payment. (See Chapter 28.) If it received no payment or a reduced no-fault payment because of failure to file a proper claim, it enters the amount that would have been payable had it filed a proper claim
15	Worker's Compensation (WC)	That portion of a higher priority WC insurance payment made on behalf of a Medicare beneficiary that the provider is applying to covered Medicare charges on this bill. It enters six zeros (0000.00) in the amount field if it is claiming a conditional payment because there has been a substantial delay in its payment. (See Chapter 28.). Where the provider received no payment or a reduced payment because of failure to file a proper claim, it enters the amount that would have been payable had it filed a proper claim.
16	PHS, Other Federal Agency	That portion of a higher priority PHS or other Federal agency's payment, made on behalf of a Medicare beneficiary that the provider is applying to covered Medicare charges.
	NOTE:	<i>A six zero value entry for Value Codes 12-16 indicates conditional Medicare payment requested (000000).</i>
17	Operating Outlier Amount	(Not reported by providers.) The FI reports the amount of operating outlier payment made (either cost or day (day outliers have been obsolete since 1997)) in CWF with this code. It does not include any capital outlier payment in this entry.

Code	Title	Definition
18	Operating Disproportionate Share Amount	(Not reported by providers.) The FI reports the operating disproportionate share amount applicable. It uses the amount provided by the disproportionate share field in PRICER. It does not include any PPS capital DSH adjustment in this entry.
19	Operating Indirect Medical Education Amount	(Not reported by providers.) The FI reports operating indirect medical education amount applicable. It uses the amount provided by the indirect medical education field in PRICER. It does not include any PPS capital IME adjustment in this entry.
20	Payer Code	(For internal use by third party payers only.)
21	<i>Catastrophic</i>	<i>Medicaid-eligibility requirements to be determined at state level.</i>
22	<i>Surplus</i>	<i>Medicaid-eligibility requirements to be determined at state level.</i>
23	<i>Recurring Monthly Income</i>	<i>Medicaid-eligibility requirements to be determined at state level.</i>
24	<i>Medicaid Rate Code</i>	<i>Medicaid-eligibility requirements to be determined at state level.</i>
25	<i>Offset to the Patient-Payment Amount – Prescription Drugs</i>	<i>Prescription drugs paid for out of a long-term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>
26	<i>Offset to the Patient-Payment Amount – Hearing and Ear Services</i>	<i>Hearing and ear services paid for out of a long-term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>
27	<i>Offset to the Patient-Payment Amount – Vision and Eye Services</i>	<i>Vision and eye services paid for out of a long-term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>

Code	Title	Definition
28	<i>Offset to the Patient-Payment Amount – Dental Services</i>	<i>Dental services paid for out of a long-term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>
29	<i>Offset to the Patient-Payment Amount – Chiropractic Services</i>	<i>Chiropractic Services paid for out of a long term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>
31	Patient Liability Amount	The FI approved the provider charging the beneficiary the amount shown for noncovered accommodations, diagnostic procedures, or treatments.
32	Multiple Patient Ambulance Transport	If more than one patient is transported in a single ambulance trip, report the total number of patients transported.
33	<i>Offset to the Patient-Payment Amount – Podiatric Services</i>	<i>Podiatric services paid for out of a long-term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>
34	<i>Offset to the Patient-Payment Amount – Other Medical Services</i>	<i>Other medical services paid for out of a long-term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>
35	<i>Offset to the Patient-Payment Amount – Health Insurance Premiums</i>	<i>Health insurance premiums paid for out of long-term care facility resident/patient's funds in the billing period submitted (Statement Covers Period).</i>
36		<i>Reserved for national assignment.</i>
37	Pints of Blood Furnished	The total number of pints of whole blood or units of packed red cells furnished, whether or not they were replaced. Blood is reported only in terms of complete pints rounded upwards, e.g., 1 1/4 pints is shown as 2 pints. This entry serves as a basis for counting pints towards the blood deductible.

Code	Title	Definition
38	Blood Deductible Pints	The number of unreplaced deductible pints of blood supplied. If all deductible pints furnished have been replaced, no entry is made.
39	Pints of Blood Replaced	<p>The total number of pints of blood that were donated on the patient's behalf. Where one pint is donated, one pint is considered replaced. If arrangements have been made for replacement, pints are shown as replaced. (See Chapter 3.)</p> <p>Where the hospital charges only for the blood processing and administration, (i.e., it does not charge a "replacement deposit fee" for unreplaced pints), the blood is considered replaced for purposes of this item. In such cases, all blood charges are shown under the 039X revenue code series (blood administration) or under the 030X revenue code series (laboratory).</p>
40	New Coverage Not Implemented by HMO	(For inpatient service only.) Inpatient charges covered by the HMO. (The hospital uses this code when the bill includes inpatient charges for newly covered services that are not paid by the HMO. It must also report condition codes 04 and 78.)
41	Black Lung (BL)	That portion of a higher priority BL payment made on behalf of a Medicare beneficiary that the provider is applying to covered Medicare charges on this bill. It enters six zeros (0000.00) in the amount field if it is claiming a conditional payment because there has been a substantial delay in its payment. Where it received no payment or a reduced payment because of failure to file a proper claim, it enters the amount that would have been payable had it filed a proper claim. (See Chapter 28.)

Code	Title	Definition
42	Veterans Affairs (VA)	That portion of a higher priority VA payment made on behalf of a Medicare beneficiary that the provider is applying to Medicare charges on this bill. (Any payment must conform to Chapter 28.)
43	Disabled Beneficiary Under Age 65 With LGHP	That portion of a higher priority LGHP payment made on behalf of a disabled beneficiary that it is applying to covered Medicare charges on this bill. The provider enters six zeros (0000.00) in the amount field, if it is claiming a conditional payment because the LGHP has denied coverage. Where it received no payment or a reduced payment because of failure to file a proper claim, it enters the amount that would have been payable had it filed a proper claim. (See Chapter 28.)
44	Amount Provider Agreed to Accept From Primary Payer When this Amount is Less than Charges but Higher than Payment Received	That portion that the provider was obligated or required to accept from a primary payer as payment in full when that amount is less than charges but higher than the amount actually received. A Medicare secondary payment is due. (See Chapter 28.)
45	<i>Accident Hour</i>	<i>The hour when the accident occurred that necessitated medical treatment. Enter the appropriate code indicated below, right justified to the left of the dollar/cents delimiter.</i>
46	Number of Grace Days	If a code "C3" or "C4" is in FL 24-30, indicating that the QIO has denied all or a portion of this billing period, the provider shows the number of days determined by the QIO to be covered while arrangements are made for the patient's post discharge. The field contains one numeric digit.

Code	Title	Definition
47	Any Liability Insurance	That portion from a higher priority liability insurance paid on behalf of a Medicare beneficiary that the provider is applying to Medicare covered charges on this bill. It enters six zeros (0000.00) in the amount field if it is claiming a conditional payment because there has been a substantial delay in the other payer's payment. (See Chapter 28.)
48	Hemoglobin Reading	The latest hemoglobin reading taken during this billing cycle. The provider reports in three positions (a percentage) to the left of the dollar/cent delimiter. If the reading is provided with a decimal, it uses the position to the right of the delimiter for the third digit.
49	Hematocrit Reading	The latest hematocrit reading taken during this billing cycle. This is usually reported in two positions (a percentage) to the left of the dollar/cent delimiter. If the reading is provided with a decimal, the provider uses the position to the right of the delimiter for the third digit.
50	Physical Therapy Visits	The number of physical therapy visits from onset (at the billing provider) through this billing period.
51	Occupational Therapy Visits	The number of occupational therapy visits from onset (at the billing provider) through this billing period.
52	Speech Therapy Visits	The number of speech therapy visits from onset (at the billing provider) through this billing period.
53	Cardiac Rehabilitation Visits	The number of cardiac rehabilitation visits from onset (at the billing provider) through this billing period.
54	Newborn birth weight in grams	Actual birth weight or weight at time of admission for an extramural birth. Required on all claims with type f admission of 4 and on other claims as required by State law.

Code	Title	Definition
55	Eligibility Threshold for Charity Care	Code identifies the corresponding value amount at which a health care facility determines the eligibility threshold for charity care.
56	Skilled Nurse – Home Visit Hours (HHA only)	The number of hours of skilled nursing provided during the billing period. The provider counts only hours spent in the home. It excludes travel time. It reports in whole hours, right justified to the left of the dollars/cents delimiter. (Rounded to the nearest whole hour.)
57	Home Health Aide – Home Visit Hours (HHA only)	The number of hours of home health aide services provided during the billing period. The provider counts only hours spent in the home. It excludes travel time. It reports in whole hours, right justified to the left of the dollars/cents delimiter. (The number is rounded to the nearest whole hour.)

NOTE: Codes 50-57 represent the number of visits or hours of service provided. Entries for the number of visits are right justified from the dollars/cents delimiter as follows:

					1	3		
--	--	--	--	--	---	---	--	--

The FI accepts zero or blanks in the cents position, converting blanks to zero for CWF.

58	Arterial Blood Gas (PO2/PA2)	Indicates arterial blood gas value at the beginning of each reporting period for oxygen therapy. This value or value 59 is required on the initial bill for oxygen therapy and on the fourth month's bill. The provider reports right justified in the cents area. (See note following code 59 for an example.)
59	Oxygen Saturation (O2 Sat/Oximetry)	Indicates oxygen saturation at the beginning of each reporting period for oxygen therapy. This value or value 58 is required on the initial bill for oxygen therapy and on the fourth month's bill. The hospital reports right justified in the cents area. (See note following this code for an example.)

NOTE: Codes 58 and 59 are not money amounts. They represent arterial blood gas or oxygen saturation levels. Round to two decimals or to the nearest whole percent. For example, a reading of 56.5 is shown as:

						5	7
--	--	--	--	--	--	---	---

A reading of 100 percent is shown as:

					1	0	0
--	--	--	--	--	---	---	---

Code	Title	Definition
60	HHA Branch MSA	The MSA in which HHA branch is located. (The HHA reports the MSA when its branch location is different than the HHA's main location – It reports the MSA number in dollar portion of the form locator, right justified to the left of the dollar/cents delimiter.)
61	Location Where Service is Furnished (HHA and Hospice)	<p>MSA number (or rural state code) of the location where the home health or hospice service is delivered. The HHA reports the number in dollar portion of the form locator right justified to the left of the dollar/cents delimiter.</p> <p>For episodes in which the beneficiary's site of service changes from one MSA to another within the episode period, HHAs should submit the MSA code corresponding to the site of service at the end of the episode on the claim.</p>
62	HH Visits – Part A (Internal Payer Use Only)	The number of visits determined by Medicare to be payable from the Part A trust fund to reflect the shift of payments from the Part A to the Part B Trust Fund as mandated by §1812(a)(3) of the Social Security Act.
63	HH Visits – Part B (Internal Payer Use Only)	The number of visits determined by Medicare to be payable from the Part B trust fund to reflect the shift of payments from the Part A to the Part B Trust Fund as mandated by §1812(a)(3) of the Social Security Act.
64	HH Reimbursement – Part A (Internal Payer Use Only)	The dollar amounts determined to be associated with the HH visits identified in a value code 62 amount. This Part A payment reflects the shift of payments from the Part A to the Part B Trust Fund as mandated by §1812(a)(3) of the Social Security Act.
65	HH Reimbursement – Part B (Internal Payer Use Only)	The dollar amounts determined to be associated with the HH visits identified in a value code 63 amount. This Part B payment

Code	Title	Definition
		reflects the shift of payments from the Part A to the Part B Trust Fund as mandated by §1812(a)(3) of the Social Security Act.
66	Medicare Spenddown Amount	The dollar amount that was used to meet the recipient's spenddown liability for this claim.
67	Peritoneal Dialysis	The number of hours of peritoneal dialysis provided during the billing period. The provider counts only the hours spent in the home, excluding travel time. It reports in whole hours, right justifying to the left of the dollar/cent delimiter. (Rounded to the nearest whole hour.)
68	Number of Units of EPO Provided During the Billing Period	Indicates the number of units of EPO administered and/or supplied relating to the billing period. The provider reports in whole units to the left of the dollar/cent delimiter. For example, 31,060 units are administered for the billing period. Thus, 31,060 is entered as follows:

	3	1	0	6	0		
--	---	---	---	---	---	--	--

Code	Title	Definition
69	State Charity Care Percent	Code indicates the percentage of charity care eligibility for the patient. Report the whole number right justified to the left of the dollar/cents delimiter and fractional amounts to the right.
70	Interest Amount	(For use by third party payers only.) The contractor reports the amount of interest applied to this Medicare claim.
71	Funding of ESRD Networks	(For third party payer use only.) The FI reports the amount the Medicare payment was reduced to help fund ESRD networks.
72	Flat Rate Surgery Charge	(For third party payer use only.) The standard charge for outpatient surgery where the provider has such a charging structure.
73-74	Payer Codes	(For use by third party payers only.)
75	Gramm/Rudman/Hollings	(For third party payer internal use only.) The contractor reports the amount of sequestration.
76	Provider's Interim Rate	(For third party payer internal use only.) Provider's percentage of billed charges interim rate during this billing period. This applies to all outpatient hospital and skilled nursing facility (SNF) claims and home health agency (HHA) claims to which an interim rate is applicable. The contractor reports to the left of the dollar/cents delimiter. An interim rate of 50 percent is entered as follows:

					5	0	0	0
--	--	--	--	--	---	---	---	---

Code	Title	Definition
77	<i>Medicare</i> New Technology Add-On Payment	Code indicates <i>the amount of Medicare additional payment for new technology.</i>
78-79	Payer Codes	Codes reserved for internal use only by third party payers. The CMS assigns as needed. Providers do not report payer codes.
<i>80-99</i>		<i>Reserved for state use. Discontinued, Effective October 16, 2003.</i>
A0	Special Zip Code Reporting	Five digit ZIP Code of the location from which the beneficiary is initially placed on board the ambulance.
A1	Deductible Payer A	The amount the provider assumes will be applied to the patient's deductible amount involving the indicated payer.
A2	Coinsurance Payer A	The amount the provider assumes will be applied toward the patient's coinsurance amount involving the indicated payer. <i>For Medicare, use this code only for reporting Part B coinsurance amounts. For Part A coinsurance amounts use Value Codes 8-11.</i>
A3	Estimated Responsibility Payer A	Amount the provider estimates will be paid by the indicated payer.

Code	Title	Definition
A4	Covered Self-Administrable Drugs - Emergency	The amount included in covered charges for self-administrable drugs administered to the patient in an emergency situation. (The only covered Medicare charges for an ordinarily noncovered, self-administered drug are for insulin administered to a patient in a diabetic coma. For use with Revenue Code 0637. See The Medicare Benefit Policy Manual, Chapter 6.)
A5	Covered Self-Administrable Drugs – Not Self-Administrable in Form and Situation Furnished to Patient	The amount included in covered charges for self-administrable drugs administered to the patient because the drug was not self-administrable in the form and situation in which it was furnished to the patient. FL42 - Revenue Code

Required. The provider enters the appropriate revenue codes from the following list to identify specific accommodation and/or ancillary charges. It must enter the appropriate numeric revenue code on the adjacent line in FL 42 to explain each charge in FL 47. Additionally, there is no fixed "Total" line in the charge area. The provider must enter revenue code 0001 instead in FL 42. Thus, the adjacent charges entry in FL 47 is the sum

of charges billed. This is the same line on which noncovered charges, in FL 48, if any, are summed.

To assist in bill review, the provider must list revenue codes in ascending numeric sequence and not repeat on the same bill to the extent possible. To limit the number of line items on each bill, it should sum revenue codes at the “zero” level to the extent possible.

The biller must provide detail level coding for the following revenue code series:

0290s - Rental/purchase of DME

0304 - Renal dialysis/laboratory

0330s - Radiology therapeutic

0367 - Kidney transplant

0420s - Therapies

0520s - Type or clinic visit (RHC or other)

0550s - 590s - home health services

0624 - Investigational Device Exemption (IDE)

0636 - Hemophilia blood clotting factors

0800s - 0850s - ESRD services

9000 - 9044 - Medicare SNF demonstration project

Zero level billing is encouraged for all other services; however, an FI may require detailed breakouts of other revenue code series from its providers.

NOTE: RHCs and FQHCs, in general, use revenue codes 052X and 091X with appropriate subcategories to complete the Form CMS-1450. The other codes provided are not generally used by RHCs and FQHCs and are provided for informational purposes. Those applicable are: 0025-0033, 0038-0044, 0047, 0055-0059, 0061, 0062, 0064-0069, 0073-0075, 0077, 0078, and 0092-0095.

NOTE: Renal Dialysis Centers bill the following revenue center codes at the detailed level:

0304 - rental and dialysis/laboratory,

0636 - hemophilia blood clotting factors,

0800s thru 0850s - ESRD services.

The remaining applicable codes are 0025, 0027, 0031-0032, 0038-0039, 0075, and 0082-0088.

NOTE: The Hospice uses revenue code 0657 to identify its charges for services furnished to patients by physicians employed by it, or receiving compensation from it. In conjunction with revenue code 0657, the hospice enters a physician procedure code in the right hand margin of FL 43 (to the right of the dotted line adjacent to the revenue code in FL 42). Appropriate procedure codes are available to it from its FI. Procedure codes are required in order for the FI to make reasonable charge determinations when paying the hospice for physician services.

The Hospice uses the following revenue codes to bill Medicare:

Code	Description	Standard Abbreviation
0651*	Routine Home Care	RTN Home
0652*	Continuous Home Care	CTNS Home (A minimum of 8 hours, not necessarily consecutive, in a 24-hour period is required. Less than 8 hours is routine home care for payment purposes. A portion of an hour is 1 hour.
0655	Inpatient Respite Care	IP Respite
0656	General Inpatient Care	GNL IP
0657	Physician Services	PHY Ser (must be accompanied by a physician procedure code.)

*The hospice must report value code 61 with these revenue codes.

Below is a complete description of the revenue center codes for all provider types:

Revenue Code	Description
0001	Total Charge For use on paper or paper facsimile (e.g., “print images”) claims only. For electronic transactions, FIs report the total charge in the appropriate data segment/field

017X Nursery

Charges for nursing care to newborn and premature infants in nurseries

Subcategories 1-4 are used by facilities with nursery services designed around distinct areas and/or levels of care. Levels of care defined under state regulations or other statutes supersede the following guidelines. For example, some states may have fewer than four levels of care or may have multiple levels within a category such as intensive care.

Level I	Routine care of apparently normal full-term or pre-term neonates (Newborn Nursery).
Level II	Low birth-weight neonates who are not sick, but require frequent feeding and neonates who require more hours of nursing than do normal neonates (Continuing Care).
Level III	Sick neonates who do not require intensive care, but require 6-12 hours of nursing care each day (Intermediate Care).

Level IV Constant nursing and continuous cardiopulmonary and other support for severely ill infants (Intensive Care).

Subcategory	Standard Abbreviations
0 - Classification	NURSERY

NOTE: Medicare will require the hospitals to report the ICD-9 diagnosis codes (FL 67) to substantiate those beneficiaries considered high risks. These high-risk codes are as follows:

ICD-9

Codes	Definitions	High Risk Indicator
V10.3	Personal History - Malignant neoplasm breast cancer	A personal history of breast cancer
V16.3	Family History - Malignant neoplasm breast cancer	A mother, sister, or daughter who has had breast cancer
V15.89	Other specified personal history representing hazards to health	Has not given birth before age 30 or a personal history of biopsy-proven benign breast disease

041X Respiratory Services

045X	Emergency Room
------	----------------

Charges for emergency treatment to those ill and injured persons who require immediate unscheduled medical or surgical care.

Rationale: Permits identification of particular items for payers. Under the provisions of the Emergency Medical Treatment and Active Labor Act (EMTALA), a hospital with an emergency department must provide, upon request and within the capabilities of the hospital, an appropriate medical screening examination and stabilizing treatment to any individual with an emergency medical condition and to any woman in active labor, regardless of the individual's eligibility for Medicare (Consolidated Omnibus Budget Reconciliation Act (COBRA) of 1985).

NOTE: Observation or hold beds are not reported under this code. They are reported under revenue code 0762, "Observation Room."

Usage Notes

An "X" in the matrix below indicates an acceptable coding combination.

	0450 ^a	0451 ^b	0452 ^c	0456	0459
0450					
0451		X	X	X	
0452		X			
0456		X			X
0459		X		X	

a. General Classification code 0450 should not be used in conjunction with any subcategory. The sum of codes 0451 and 0452 is equivalent to code 0450. Payers that do not require a breakdown should roll up codes 0451 and 0452 into code 0450.

b. Stand alone usage of code 0451 is acceptable when no services beyond an initial screening/assessment are rendered.

c. Stand alone usage of code 0452 is **not acceptable**.

Code	Description
------	-------------

Usage Notes:

1. To be used by trauma center/hospitals as licensed or designated by the state or local government authority authorized to do so, or as verified by the American College of Surgeons and involving a trauma activation.

2. Revenue Category 068X is used for patients for whom a trauma activation occurred. A trauma team activation/response is a "Notification of key hospital personnel in response to triage information from pre-hospital caregivers in advance of the patient's arrival."

3. Revenue Category 068X is for reporting trauma activation costs only. It is an activation fee and not a replacement or a substitute for the emergency room visit fee; if trauma activation occurs, there will normally be both a 045X and 068X revenue code reported.

4. Revenue Category 068X is not limited to admitted patients.

5. Revenue Category 068X must be used in conjunction with FL 19 Type of Admission/Visit code 05 ("Trauma Center"), however FL 19 Code 05 can be used alone.

Only patients for who there has been **pre-hospital** notification, who meet either local, state or American College of Surgeons field triage criteria, or are delivered by inter-hospital transfers, and are given the appropriate team response, can be billed the trauma activation fee charge. Patients who are "drive-by" or arrive without notification cannot be charged for activations, but can be classified as trauma under Type of Admission Code 5 for statistical and follow-up purposes.

6. Levels I, II, III or IV refer to designations by the state or local government authority or as verified by the American College of Surgeons.

7. Subcategory 9 is for state or local authorities with levels beyond IV.

Code	Description
-------------	--------------------

Observation services are those services furnished by a hospital on the hospital's premises, including use of a bed and periodic monitoring by a hospital's nursing or other staff, which are reasonable and necessary to evaluate an outpatient's condition or determine the need for a possible admission to the hospital as an inpatient. Such services are covered only when provided by the order of a physician or another individual authorized by State licensure law and hospital staff bylaws to admit patients to the hospital or to order outpatient tests. Most observation services do not exceed one day. Some patients, however, may require a second day of outpatient observation services. The reason for observation must be stated in the orders for observation. Payer should establish written guidelines that identify coverage of observation services.

FL 43 - Revenue Description

Not Required. The provider enters a narrative description or standard abbreviation for each revenue code shown in FL 42 on the adjacent line in FL 43. The information assists clerical bill review. Descriptions or abbreviations correspond to the revenue codes. “Other” code categories are locally defined and individually described on each bill.

The investigational device exemption (IDE) or procedure identifies a specific device used only for billing under the specific revenue code 0624. The IDE will appear on the paper format of Form CMS-1450 as follows: FDA IDE # A123456 (17 spaces).

HHAs identify the specific piece of DME or nonroutine supplies for which they are billing in this area on the line adjacent to the related revenue code. This description must be shown in HCPCS coding. (Also see FL 84, Remarks.)

FL 44 - HCPCS/Rates

Required. When coding HCPCS for outpatient services, the provider enters the HCPCS code describing the procedure here.

On inpatient hospital bills the accommodation rate is shown here.

FL 45 - Service Date

Required *Outpatient.* Effective June 5, 2000, CMHCs and hospitals (with the exception of CAHs, Indian Health Service hospitals and hospitals located in American Samoa, Guam and Saipan) report line item dates of service *on all bills containing revenue codes, procedure codes or drug codes.* This includes claims where the “from” and “through” dates are equal. *This change is due to a HIPAA requirement.*

Not Required for Inpatient. Claims will not be rejected if the date of service is on an inpatient claim.

FL 46 - Units of Service

Required. Generally, the entries in this column quantify services by revenue code category, e.g., number of days in a particular type of accommodation, pints of blood. However, when HCPCS codes are required for services, the units are equal to the number of times the procedure/service being reported was performed. Providers have been instructed to provide the number of covered days, visits, treatments, procedures, tests, etc., as applicable for the following:

- Accommodations - 0100s - 0150s, 0200s, 0210s (days)
- Blood pints - 0380s (pints)
- DME - 0290s (rental months)
- Emergency room - 0450, 0452, and 0459 (HCPCS code definition for visit or procedure)
- Clinic - 0510s and 0520s (HCPCS code definition for visit or procedure)
- Dialysis treatments - 0800s (sessions or days)
- Orthotic/prosthetic devices - 0274 (items)
- Outpatient therapy visits - 0410, 0420, 0430, 0440, 0480, 0910, and 0943 (Units are equal to the number of times the procedure/service being reported was performed.)

- Outpatient clinical diagnostic laboratory tests - 030X-031X (tests)
- Radiology - 032x, 034x, 035x, 040x, 061x, and 0333 (HCPCS code definition of tests or services)
- Oxygen - 0600s (rental months, feet, or pounds)
- *Drugs and Biologicals- 0636 (including hemophilia clotting factors)*

The provider enters up to seven numeric digits. It shows charges for noncovered services as noncovered, or omits them.

NOTE: Hospital outpatient departments report the number of visits/sessions when billing under the partial hospitalization program.

For RHCs or FQHCs, a “visit” is defined as a face-to-face encounter between a clinic/center patient, and one of the certified RHC or FQHC health professionals. Encounters with more than one health professional, and encounters with the same health professional which take place on the same day and at a single location constitute a single “visit,” except for cases in which the patient, subsequent to the first encounter, suffers illness or injury requiring additional diagnosis or treatment.

EXAMPLE 1

A known diabetic visits the provider on the morning on May 1 and sees the physician assistant. The physician assistant believes an adjustment in current medication is required, but wishes to have the clinic’s physician, who will be present in the afternoon, check the determination. The patient returns in the afternoon and sees the physician, who revises the prescribed medication. The physician recommends that the patient return the following week, on May 8, for a fasting blood sugar analysis to check the response to the change in medication. In this situation, the provider bills the Medicare program for one visit. Also, it includes a line item charge for laboratory services for May 1.

EXAMPLE 2

A patient visits the provider on July 1 complaining of a sore throat, and sees the physician assistant. The physician assistant examines the patient, takes a throat culture and requests that the patient return on July 8 for a follow-up visit to the physician assistant. In this situation, the provider bills the Medicare program for two visits. Also, it includes an entry for laboratory.

FL 47 - Total Charges - Not Applicable for Electronic Billers

Required. This is the FL in which the provider sums the total charges for the billing period for each revenue code (FL 42); or, if the services require, in addition to the revenue center code, a HCPCS procedure code, where the provider sums the total charges for the billing period for each HCPCS code. The last revenue code entered in FL 42 is “0001” which represents the grand total of all charges billed. The amount for this code,

as for all others is entered in FL 47. Each line for FL 47 allows up to nine numeric digits (0000000.00). **NOTE: Electronic Billers do not submit a revenue center code 0001.**

The CMS policy is for providers to bill Medicare on the same basis that they bill other payers. This policy provides consistency of bill data with the cost report so that bill data may be used to substantiate the cost report.

Medicare and non-Medicare charges for the same department must be reported consistently on the cost report. This means that the professional component is included on, or excluded from, the cost report for Medicare and non-Medicare charges. Where billing for the professional components is not consistent for all payers, i.e., where some payers require net billing and others require gross, the provider must adjust either net charges up to gross or gross charges down to net for cost report preparation. In such cases, it must adjust its provider statistical and reimbursement (PS&R) reports that it derives from the bill.

For outpatient Part B billing, only charges believed to be covered are submitted in FL 47. Non-covered charges are omitted from the bill.

Laboratory tests (revenue codes 0300-0319) are billed as net for outpatient or nonpatient bills because payment is based on the lower of charges for the hospital component or the fee schedule. The FI determines, in consultation with the provider, whether the provider must bill net or gross for each revenue center other than laboratory. Where “gross” billing is used, the FI adjusts interim payment rates to exclude payment for hospital-based physician services.

The physician component must be billed to the carrier to obtain payment.

All revenue codes requiring HCPCS codes and paid under a fee schedule are billed as net.

FL 48 - Noncovered Charges

Required. The total noncovered charges pertaining to the related revenue code in FL 42 are entered here.

FL 49 - (Untitled)

Not Required. This is one of three national fields that have not been assigned. Use of the field, if any, is assigned by the NUBC.

FL 50A, B, and C - Payer Identification

Required. If Medicare is the primary payer, the provider must enter “Medicare” on line A. Entering Medicare indicates that the provider has developed for other insurance and determined that Medicare is the primary payer. All additional entries across line A (FLs 51-55) supply information needed by the payer named in FL 50A. If Medicare is the secondary or tertiary payer, the provider identifies the primary payer on line A and enters Medicare information on line B or C as appropriate. (See Chapter 28.) Conditional

payments for Medicare Secondary Payer (MSP) situations will not be made based on a Home Health Agency Request for Anticipated Payment (RAP).

FL 51A, B, and C - Provider Number

Required. The provider enters the six position alpha-numeric “number” assigned by Medicare. It must be entered on the same line as “Medicare” in FL 50.

FLs 52A, B, and C - Release of Information Certification Indicator

Required. A “Y” code indicates that the provider has on file a signed statement permitting it to release data to other organizations in order to adjudicate the claim. An “R” code indicates the release is limited or restricted. An “N” code indicates no release on file.

NOTE: The back of Form CMS-1450 contains a certification that all necessary release statements are on file.

FL 53A, B, and C - Assignment of Benefits Certification Indicator

Not Required.

FLs 54A, B, and C - Prior Payments

Required. For all services other than inpatient hospital or SNF the provider must enter the sum of any amounts collected from the patient toward deductibles (cash and blood) and/or coinsurance on the patient (fourth/last line) of this column.

In apportioning payments between cash and blood deductibles, the first 3 pints of blood are treated as noncovered by Medicare. Thus, for example, if total inpatient hospital charges were \$350.00 including \$50.00 for a deductible pint of blood, the hospital would apportion \$300.00 to the Part A deductible and \$50.00 to the blood deductible. Blood is treated the same way in both Part A and Part B.

Part A home health DME cost sharing amounts collected from the patient are reported in this item.

FL 55A, B, and C - Estimated Amount Due From Patient

Not Required.

FL 56 - (Untitled)

Previously reserved for State Use. Discontinued Effective October 16, 2003.

FL 57 - (Untitled)

Previously reserved for State Use. Discontinued Effective October 16, 2003.

FLs 58A, B, and C - Insured's Name

Required. On the same lettered line (A, B or C) that corresponds to the line on which Medicare payer information is shown in FLs 50-54, the provider must enter the patient's name as shown on the HI card or other Medicare notice. All additional entries across line A (FLs 59-66) pertain to the person named in Item 58A. The instructions that follow explain when to complete these items.

The provider must enter the name of the individual in whose name the insurance is carried if there are payer(s) of higher priority than Medicare and it is requesting payment because:

- Another payer paid some of the charges and Medicare is secondarily liable for the remainder;
- Another payer denied the claim; or
- The provider is requesting conditional payment as described in Chapter 28. If that person is the patient, the provider enters "Patient." Payers of higher priority than Medicare include:
 - EGHPs for employed beneficiaries and spouses age 65 or over;
 - EGHPs for beneficiaries entitled to benefits solely on the basis of ESRD during a period of up to 12 months;
 - LGHPs for disabled beneficiaries;
 - An auto-medical, no-fault, or liability insurer; or
 - WC including BL.

For more information, see Chapter 28.

FL 59A, B, and C - Patient's Relationship to Insured

Required. If the provider is claiming payment under any of the circumstances described under FLs 58 A, B, or C, it must enter the code indicating the relationship of the patient to the identified insured, if this information is readily available.

FLs 60A, B, and C - Certificate/Social Security Number/HI Claim/Identification Number (HICN)

Required. On the same lettered line (A, B, or C) that corresponds to the line on which Medicare payer information is shown in FLs 50-54, the provider enters the patient's HICN, i.e., if Medicare is the primary payer, it enters this information in FL 60A. It shows the number as it appears on the patient's HI Card, Certificate of Award, Medicare Summary Notice, or as reported by the Social Security Office.

If the provider is reporting any other insurance coverage higher in priority than Medicare (e.g., EGHP for the patient or the patient's spouse or during the first year of ESRD entitlement), it shows the involved claim number for that coverage on the appropriate line.

FL 61A, B, and C - Insurance Group Name

Required. Where the provider is claiming payment under the circumstances described in FLs 58A, B, or C and a WC or an EGHP is involved, it enters the name of the group or plan through which that insurance is provided.

FL 62A, B, and C - Insurance Group Number

Required. Where the provider is claiming payment under the circumstances described in FLs 58A, B, or C and a WC or an EGHP is involved, it enters the identification number, control number or code assigned by that health insurance carrier to identify the group under which the insured individual is covered.

FL 63 - Treatment Authorization Code

Required. Whenever QIO review is performed for outpatient preadmission, pre-procedure, or Home IV therapy services, the authorization number is required for all approved admissions or services.

FL 64 - Employment Status Code

Required. Where claiming payment under the circumstances described in FLs 58A, B, or C, the provider enters the appropriate code.

Code	Title	Definition
1	Employed Full Time	Individual claimed full-time employment.
2	Employed Part Time	Individual claimed part-time employment.
3	Not Employed	Individual states that they are not employed full time or part time

Code	Title	Definition
4	Self-employed	Self-explanatory
5	Retired	Self-explanatory
6	On Active Military Duty	Self-explanatory
7-8		Reserved for National Assignment
9	Unknown	Individual's Employment Status is Unknown

FL 65 - Employer Name

Required. Where the provider is claiming payment under the circumstances described in the second paragraph of FLs 58A, B, or C and there is WC involvement or an EGHP, it enters the name of the employer that provides health care coverage for the individual identified on the same line in FL 58.

FL 66 - Employer Location

Required. Where the provider is claiming payment under the circumstances described in the second paragraph of FLs 58A, B or C and there is WC involvement or an EGHP, it enters the specific location of the employer of the individual identified on the same line in FL 58. A specific location is the city, plant, etc., in which the employer is located.

FL 67 - Principal Diagnosis Code

Required for Bill Types 11X, 12X, and 13X.

Inpatient - Required. The hospital enters the ICD-9-CM code for the principal diagnosis. The code **must** be the full ICD-9-CM diagnosis code, including all five digits where applicable. Where the proper code has fewer than five digits, the hospital may not fill with zeros.

The principal diagnosis is the condition established after study to be chiefly responsible for this admission. Even though another diagnosis may be more severe than the principal diagnosis, the hospital enters the principal diagnosis. Entering any other diagnosis may result in incorrect assignment of a DRG and cause the hospital to be incorrectly paid under PPS

Outpatient-Required. The hospital reports the full ICD-9-CM code for the diagnosis shown to be chiefly responsible for the outpatient services in FL 67 of the bill. It reports the diagnosis to its highest degree of certainty. For instance, if the patient is seen on an outpatient basis for an evaluation of a symptom (e.g., cough) for which a definitive diagnosis is not made, the symptom must be reported (786.2). If during the course of the

outpatient evaluation and treatment a definitive diagnosis is made (e.g., acute bronchitis), the hospital must report the definitive diagnosis (466.0).

When a patient arrives at the hospital for examination or testing without a referring diagnosis and cannot provide a complaint, symptom, or diagnosis, the hospital should report an ICD-9-CM code for Persons Without Reported Diagnosis Encountered During Examination and Investigation of Individuals and Populations (V70-V82). Examples include:

- Routine general medical examination (V70.0);
- General medical examination without any working diagnosis or complaint, patient not sure if the examination is a routine checkup (V70.9); and
- Examination of ears and hearing (V72.1).

NOTE: Diagnosis codes are not required on nonpatient claims for laboratory services where the hospital functions as an independent laboratory.

FLs 68-75 - Other Diagnosis Codes

Inpatient - Required. The hospital enters the full ICD-9-CM codes for up to eight additional conditions if they co-existed at the time of admission or developed subsequently, and which had an effect upon the treatment or the length of stay.

It may **not** duplicate the principal diagnosis listed in FL 67 as an additional or secondary diagnosis. If the principal diagnosis is duplicated, the FI will remove the duplicate diagnosis before the record is processed by GROUPER. The MCE identifies situations where the principal diagnosis is duplicated.

Outpatient - Required. The hospital enters the full ICD-9-CM codes in FLs 68-75 for up to eight other diagnoses that co-existed in addition to the diagnosis reported in FL 67.

FL 76 - Admitting Diagnosis/Patient's Reason for Visit

Required. For inpatient hospital claims subject to QIO review, the admitting diagnosis is required. Admitting diagnosis is the condition identified by the physician at the time of the patient's admission requiring hospitalization. This definition is not the same as that for SNF admissions.

FL 76 is a dual use field. Patient's Reason for Visit is not required by Medicare but may be used by providers for non-scheduled visits for outpatient bills.

FL 77 - E-Code

Not Required.

FL 78 - (Untitled)

Not Required. This is one of four fields that have not been assigned for national use. Use of the field, if any, is assigned by the SUBC and is uniform within a State.

FL 79 - Procedure Coding Method Used

Not Required.

FL 80 - Principal Procedure Code and Date

Required for Inpatient Only. The provider enters the ICD-9-CM code for the inpatient principal procedure. The principal procedure is the procedure performed for definitive treatment rather than for diagnostic or exploratory purposes, or which was necessary to take care of a complication. It is also the procedure most closely related to the principal diagnosis (FL 67).

For this item, surgery includes incision, excision, amputation, introduction, repair, destruction, endoscopy, suture, and manipulation. FIs review this item against FLs 42-47. Such review may alert them to noncovered services or omissions.

The procedure code shown must be the full ICD-9-CM, Volume 3, procedure code, including all four-digit codes where applicable. See first paragraph under FL 67 for acceptable ICD-9-CM codes.

The hospital shows the date of the principal procedure numerically as MMDDYY in the “date” portion.

The FI transmits to CMS the original codes reported by the provider, unless in the course of the claims development it restores contradictory correct codes.

FL 81 - Other Procedure Codes and Dates

Required for Inpatient Only. The hospital enters the full ICD-9-CM, Volume 3, procedure codes, including all four digits where applicable, for up to five significant procedures other than the principle procedure (shown in FL 80). It shows the date of each procedure numerically as MMDDYY in the “date” portion of FL 81, as applicable. It does not repeat procedures unless it does them more than once. The paper Form CMS-1450 accommodates only two other procedures. An additional three other procedures may be reported in Remarks. The FI’s data entry screens will be capable of accepting the principle procedures and five other procedures. EMC formats include principle and five other procedures.

The FI transmits to CMS the original codes reported by the provider, unless in the course of the claims development it restores contradictory correct codes.

FL 82 - Attending/Requesting Physician ID

Required. The hospital enters the UPIN and name of the attending physician on inpatient bills or the physician that requested outpatient services. This requirement applies to inpatient bills (hospital and SNF Part A) with a “Through” date of January 1, 1992, or later, and to outpatient and other Part B bills with a “From” date of January 1, 1992, or later.

Inpatient Part A - The provider enters the UPIN and name of the attending physician. For hospital services the Uniform Hospital Discharge Data Set definition for attending physician is used. This is the clinician primarily responsible for the care of the patient from the beginning of the inpatient episode. For SNF services, i.e., swing bed, the attending physician is the practitioner who certifies the SNF plan of care. The provider enters the UPIN in the first six positions, followed by two spaces, the physician’s last name, one space, first name, one space and middle initial.

Outpatient and Other Part B - The provider enters the UPIN and name of the physician that requested the surgery, therapy, diagnostic tests or other services in the first six positions followed by two spaces, the physician’s last name, one space, first name, one space and middle initial.

If the patient is self-referred (e.g., emergency room or clinic visit), the provider enters SLF000 in the first six positions, and does not enter a name.

Claim Where Physician Not Assigned a UPIN. - Not all physicians are assigned UPINs. Where the physician is an intern or resident, the number assignment may not be complete. Also, numbers are not assigned to physicians who limit their practice to the Public Health Service, Department of Veterans Affairs or Indian Health Services. The provider must use the following UPINs to report these physicians:

INT000	for each intern
RES000	for each resident
PHS000	for Public Health Service physicians, includes Indian Health Services
VAD000	for Department of Veterans Affairs physicians
RET000	for retired physicians
SLF000	for providers to report that the patient is self-referred
OTH000	for all other unspecified entities not included above.

SLF will be accepted except where the revenue code or HCPCS code indicates that the service can be provided only as a result of physician referral. The SLF000 and OTH000 ID may be audited.

If referrals originate from physician-directed facilities (e.g., rural health clinics), the hospital enters the UPIN of the physician responsible for supervising the practitioner that provided the medical care to the patient.

If more than one referring physician is indicated, the provider enters the UPIN of the physician requesting the service with the highest charge.

FL 83 - Other Physician ID

Inpatient Part A Hospital

Required if a procedure is performed. The hospital enters the UPIN and name of the physician who performed the principal procedure. If no principal procedure is performed, the hospital enters the UPIN and name of the physician who performed the surgical procedure most closely related to the principal diagnosis. If no procedure is performed, the hospital leaves this item blank. See FL 82 (inpatient) for specifications.

Outpatient Hospital

Required where the HCPCS code reported is subject to the Ambulatory Surgical Center (ASC) payment limitation or where a reported HCPCS code is on the list of codes the QIO furnishes that require approval. The hospital enters the UPIN and name of the operating physician using the format for inpatient reporting.

Other Bills

Not Required.

FL 84 - Remarks

Required. For DME billings the provider shows the rental rate, cost, and anticipated months of usage so that the provider's FI may determine whether to approve the rental or purchase of the equipment. Where Medicare is not the primary payer because WC, automobile medical, no-fault, liability insurer or an EGHP is primary, the provider enters special annotations. (See Chapter 28 for appropriate annotations.) In addition, the provider enters any remarks needed to provide information that is not shown elsewhere on the bill but which is necessary for proper payment. For Renal Dialysis Facilities, the provider enters the first month of the 30-month period during which Medicare benefits are secondary to benefits payable under an EGHP. (See Occurrence Code 33.)

FL 85 - Provider Representative Signature

Required on Hardcopy. A provider representative makes sure that the required physician's certification and recertifications are in the records before signing the form. A stamped signature is acceptable.

FL 86 - Date

Not Required. This is the date of the provider representative's signature.

70 - Form CMS-1450 Consistency Edits

A3-3606, HO-462

In order to be paid correctly and promptly, a bill must be completed accurately. The hospital (**but not other provider types**) must edit all Medicare required fields for alphabetic or numeric characters as shown below. In addition, it must apply the MCE edits described in Chapter 3, "Inpatient Part A Hospital" on diagnoses and procedures to its bills before submission. If the hospital's bill fails these edits, the FI returns it to the hospital for correction. If the FI edits bill data online as the hospital keys and transmits bills, the edits are included in FI software and the hospital need not duplicate them. If the hospital prepares magnetic tape or paper bills, either directly or through a billing service, it must ensure that these edits are made before forwarding the bill to the FI. Otherwise, the FI returns the bill and the hospital experiences delay in receiving payment until the bill is properly completed. Depending upon special services the hospital may provide, its FI may require additional edits.

FL 4 - Type of Bill

- a. Must not be spaces.
- b. Must be a valid code for billing. Valid codes are:

First Digit - Type of Facility

- 1. Hospital

NOTE: Hospital-based multi-unit complexes may also have use for the following first digits when billing nonhospital services:

- 2. Skilled Nursing
- 3. Home Health
- 4. Religious Nonmedical Health Care Facility (Hospital)
- 5. Religious Nonmedical Health Care Facility (Extended Care)

7. Clinic (see special coding for second digit below)
8. Special Facility, Hospital ASC Surgery (requires special information in second digit, see below)

2nd Digit-Bill Classification (Except Clinics and Special Facilities)

First digit is 1-5

1. Inpatient (Part A)
2. Inpatient (Part B) - (For non PPS HHA claims, Includes HHA visits under a Part B plan of treatment, for HHA PPS claims, indicates a Request for Anticipated Payment - RAP.) Note: For HHA PPS claims, CMS determines from which Trust Fund payment is made. Therefore, there is no need to indicate Part A or Part B on the bill.
3. Outpatient (For HHA non-PPS claims, includes HHA visits under a Part A plan of treatment and use of HHA DME under a Part A plan of treatment). For home health agency claims paid under PPS, CMS determines from which Trust Fund, Part A or Part B. Therefore, there is no need to indicate Part A or Part B on the bill.
4. Other (Part B) - Includes HHA medical and other health services not under a plan of treatment, hospital and SNF for diagnostic clinical laboratory services for “nonpatients,” and referenced diagnostic services. For HHA PPS claims, indicates an osteoporosis claim.
5. Intermediate Care - Level I
6. Intermediate Care - Level II
7. Subacute Inpatient (Revenue Code 019X required)
8. Swing bed. (may be used to indicate billing for SNF level of care in a hospital with an approved swing bed agreement).

Second Digit - Classification (Clinics Only - if first digit is 7)

1. Rural Health Clinic (RHC)
2. Hospital Based or Independent Renal Dialysis Facility
3. Free Standing Provider-Based Federally Qualified Health Center (FQHC)
4. Other Rehabilitation Facility (ORF)
5. Comprehensive Outpatient Rehabilitation Facility (CORF)

6. Community Mental Health Center (CMHC)

2nd Digit-Classification - Special Facilities Only (if first digit is 8)

1. Hospice (Nonhospital based)
2. Hospice (Hospital based)
3. Ambulatory Surgical Center Services to Hospital Outpatients
4. Free Standing Birthing Center
5. Critical Access Hospital

Third Digit - Frequency

A	Hospice Admission Notice	Used when the hospice or Religious Nonmedical Health Care Institution is submitting Form CMS-1450 as an Admission Notice.
B	Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution Termination/Revocation Notice	Used when the Form CMS-1450 is used as a notice of termination/revocation for a previously posted Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution election.
C	Hospice Change of Provider Notice	Used when Form CMS-1450 is used as a Notice of Change to the hospice provider.
D	Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution Void/Cancel	Used when Form CMS-1450 is used as a Notice of a Void/Cancel of Hospice/Medicare Coordinated Care Demonstration/Religious Nonmedical Health Care Institution election.
E	Hospice Change of Ownership	Used when Form CMS-1450 is used as a Notice of Change in Ownership for the hospice.
F	Beneficiary Initiated Adjustment Claim	Used to identify adjustments initiated by the beneficiary. For FI use only.
G	CWF Initiated Adjustment Claim	Used to identify adjustments initiated by CWF. For FI use only.

H	CMS Initiated Adjustment Claim	Used to identify adjustments initiated by CMS. For FI use only.
I	FI Adjustment Claim (Other than QIO or Provider	Used to identify adjustments initiated by the FI. For FI use only
J	Initiated Adjustment Claim-Other	Used to identify adjustments initiated by other entities. For FI use only.
K	OIG Initiated Adjustment Claim	Used to identify adjustments initiated by OIG. For FI use only.
M	MSP Initiated Adjustment Claim	Used to identify adjustments initiated by MSP. For FI use only. Note: MSP takes precedence over other adjustment sources.
P	QIO Adjustment Claim	Used to identify an adjustment initiated as a result of a QIO review. For FI use only.
0	Nonpayment/Zero Claims	Provider uses this code when it does not anticipate payment from the payer for the bill, but is informing the payer about a period of non-payable confinement or termination of care. The “Through” date of this bill (FL 6) is the discharge date for this confinement, or termination of the plan of care. Medicare requires “nonpayment” bills only to extend the spell-of-illness in inpatient cases. Other nonpayment bills are not needed and may be returned to the provider.
1	Admit Through Discharge Claim	The provider uses this code for a bill encompassing an entire inpatient confinement or course of outpatient treatment for which it expects payment from the payer or which will update deductible for inpatient or Part B claims when Medicare is secondary to an EGHP.
2	Interim-First Claim	Used for the first of an expected series of bills for which utilization is chargeable or which will update inpatient deductible for the same confinement of course of treatment. For HHAs, used for the submission of original or replacement RAPs.

3	Interim-Continuing Claims (Not valid for PPS Bills)	Use this code when a bill for which utilization is chargeable for the same confinement or course of treatment had already been submitted and further bills are expected to be submitted later.
4	Interim-Last Claim (Not valid for PPS Bills)	This code is used for a bill for which utilization is chargeable, and which is the last of a series for this confinement or course of treatment. The “Through” date of this bill (FL 6) is the discharge for this treatment.
5	Late Charge Only	Used for outpatient claims only. Late charges are not accepted for Medicare inpatient, home health, or Ambulatory Surgical Center (ASC) claims.
7	Replacement of Prior Claim	This is used to correct a previously submitted bill. The provider applies this code to the corrected or “new” bill.
8	Void/Cancel of a Prior Claim	The provider uses this code to indicate this bill is an exact duplicate of an incorrect bill previously submitted. A code “7” (Replacement of Prior Claim) is being submitted showing corrected information.
9	Final Claim for a Home Health PPS Episode	This code indicates the HH bill should be processed as a debit or credit adjustment to the request for anticipated payment.

FL 6 - Statement Covers Period (From-Through)

- a. Cannot exceed eight positions in either “From” or “Through” portion allowing for separations (nonnumeric characters) in the third and sixth positions..
- b. The “From” date must be a valid date which is not later than the “Through” date.
- c. The “Through” date must be a valid date that is not later than the current date.
- d. The number of days represented by this period must equal the sum of the covered days (FL 7) and noncovered days (FL 8), if the type of bill is 11X, 18X, 21X, 41X, or 51X.

FL 7 - Covered Days

No edit. The FI determines the number of covered days in its bill process.

FL 8 - Noncovered Days

No edit. The FI determines the number of noncovered days in its bill process.

FL 9 - Coinsurance Days

No edit. The FI determines the number of coinsurance days in its bill process.

FL 10 - Lifetime Reserve Days

No edit. The FI determines the number of lifetime reserve days in its bill process.

FL 13 - Patient's Address

- a. The address of the patient must include:
 - City
 - State (P.O. Code)
 - ZIP
- b. Valid ZIP code must be present if the type of bill is 11X, 13X, 18X, or 83X.
- c. Cannot exceed 62 positions.

FL 14 - Birth Date

- a. Must be valid if present.
- b. Cannot exceed ten positions allowing for separations (nonnumeric characters) in the third and sixth positions.

FL 15 - Sex

- a. One alpha position.
- b. Valid characters are "M" or "F."
- c. Must be present.

FL17 - Admission Date

- a. Must be valid if present.
- b. Cannot exceed eight positions allowing for separations (nonnumeric characters) in the third and sixth positions.
- c. Present only if the type of bill is 11X, 21X, 32X, 33X, 41X, 51X, 81X, or 82X.
- d. Cannot be later than the "From" portion of FL 6

FL19 - Type of Admission

- a. One numeric position.
- b. Required only if the type of bill is 11X or 41X.
- c. Valid codes are:
 - 1 Emergency
 - 2 Urgent
 - 3 Elective
 - 9 Information unavailable

FL 20 - Source of Admission

- a. One numeric position.
- b. Required if the type of bill is 11X, 13X, 32X, 33X, 41X or 83X.
- c. Valid codes are:
 - 1. Physician referral
 - 2. Clinic referral
 - 3. HMO referral
 - 4. Transfer from a hospital
 - 5. Transfer from a SNF
 - 6. Transfer from another health care facility
 - 7. Emergency room
 - 8. Court/Law enforcement
 - 9. Information not available
 - A. Inpatient - Patient admitted to this facility as an inpatient transfer from a CAH.
 - Outpatient - Patient referred to this facility for outpatient or referenced diagnostic services by (a physician of) the CAH where the patient is an inpatient.

- B. Patient admitted to this HHA as a transfer from another HHA.
- C. Patient readmitted to this HHA within the same home health episode period.

FL 22 - Patient Status

- a. Two numeric positions.
- b. Present only on Part A bills, bill types 11X, 13X 18X, 21X, 32X, 33X, 41X, 51X, 81X, or 82X, and Part B bills, bill types 13X and 83X
- c. Valid codes for hospital, SNF, HHA and RNHCI are:
 - 01 Discharged to home/self care (routine charge)
 - 02 Discharged/transferred to a short-term general hospital for inpatient care
 - 03 Discharged/transferred to SNF-see "Discharged/transferred within this institution to a hospital based Medicare approved swing bed," Code 61 below
 - 04 Discharged/transferred to ICF
 - 05 Discharged/transferred to another type of institution (including distinct parts) or referred to another institution.
 - 06 Discharged/transferred to home under care of organized home health service organization
 - 07 Left against medical advice or discontinued care.
 - 08 Discharged/transferred to home under care of a home IV drug therapy provider
 - 09 Admitted as an inpatient to this hospital (valid only for outpatient hospital bills for services prior to the third day before admission.)
 - 20 Expired (did not recover - Religious Nonmedical Health Care Institution patient)
 - 30 Still patient or expected to return for outpatient services.
- d. Valid codes for hospice (81X or 82X) are:
 - 01 Discharged (left this hospice)
 - 30 Still patient (remains a patient)

- 40 Expired at home
- 41 Expired in a medical facility such as a hospital, SNF, ICF, or freestanding hospice
- 42 Expired - place unknown
- 50 Discharged/transferred to Hospice - home
- 51 Discharged/transferred to Hospice - medical facility
- 61 Discharged/transferred within this institution to a hospital based Medicare approved swing bed.
- 71 Discharged/transferred to another institution for outpatient services
- 72 Discharged/transferred to this institution for outpatient services

FL 23 - Medical Record Number

- a. If provided by the biller, must be recorded by the FI for the QIO
- b. Must be left justified in CWF record for QIO

FLs 24, 25, 26, 27, 28, 29, and 30 - Condition Codes

- a. Each code is 2 numeric digits
- b. Valid codes for Medicare are:

02	56
04	57
05	60
06	61
07	62
08	63
09	64
10	65
11	66

15	70
16	71
20	72
21	73
26	74
27	75
28	76
29	77
36	78
37	79
38	A5-A9
39	C1-C7
40	D0-D9
41	E0
55	

- c. If code 07 is entered, type of bill must not be hospice (bill types 81X or 82X).
- d. If codes 36, 37, 38 or 39 are entered, the type of bill must be 11X and the provider must be a non PPS hospital or exempt unit.
- e. If code “40” is entered, the “From” and “Through” dates in FL 6 must be equal, and there must be a “0 or 1” in FL 7 (Covered Days).
- f. Only one code 70, 71, 72, 73, 74, 75, or 76 can be on an ESRD claim.
- g. Code C1, C3, C4, C5 or C6 must be present if type of bill is 11X or 18X.

FLs 32, 33, 34, and 35 - Occurrence Codes and Dates

- a. All dates must be valid.
- b. Each code must be accompanied by a date.

- c. All codes are two alpha-numeric positions.
- d. Valid codes are 01-99 and A0-Z9.
- e. If code 20 or 26 is entered, the type of bill must be 11X or 41X; if code 21 or 22 is entered the type of bill must be 18X or 21X.
- f. If code 27 is entered, the bill type must be 81X or 82X.
- g. If code 28 is entered, the first digit in FL 4 must be a “7” and the second digit “4” or “5.”
- h. If code 42 is entered, the first digit in FL 4 must be “8” and the second digit “1” or “2” and the third digit “1 or 4.”
- i. If 01 - 04 is entered, Medicare cannot be the primary payer, i.e., Medicare related entries cannot appear on the “A” lines of FLs 58-62.
- j. If code 20 is entered:
 - Must either be earlier than “Admission Date” (FL 17) or later than “Through” Date (FL 6).
 - Must be less than 13 days after the admission date (FL 17) if “From” date is equal to admission date (less than 14 days if billing dates cover the period 12/24 through 1/2).
- k. If code 21 is entered:
 - Cannot be later than “Statement Covers Period” Through date.
 - Cannot be more than 3 days prior to the “Statement Covers Period” From date.
- l. If code 22 is entered, the date must be within the billing period shown in FL 6.
- m. If code 34 is entered, the type of bill must be 51X.

FL 36 - Occurrence Span Codes and Dates

- a. Dates must be valid.
- b. Code entry is two alpha-numeric positions
- c. Code must be accompanied by dates
- d. Valid codes are:

71

72

74

75

76

77

78

79

M0

M1

M2 - If code M2 is present, the bill type must be 81X or 82X.

- e. If code 70 is entered, the type of bill must be 11X, 18X, 21X, or 51X.
- f. If code 71 is entered, the first digit of FL 4 must be “1,” “2,” “4,” or “5” and the second digit must be “1.”
- g. If code 72 is entered, the type of bill must be 13X, 14X, 32X, 33X, 34X, 71X, 74X, or 75X.
- h. If code 74 is entered, the type of bill must be 11X, 13X, 14X, 18X, 21X, 34X, 41X, 51X, 71X, 72X, 74X, 75X, 81X, or 82X.
- i. If code 75 is entered, the first digit of FL 4 must be “1 or 4” and the second digit must be “1.”
- j. If code 76 is entered, occurrence code 31 or 32 must be present.
- k. If code 76 or 77 is present, the bill type must be 11X, 13X, 14X, 18X, 21X, 34X, 41X, 51X, 71X, 72X, 74X, 75X, 81X, or 82X.
- l. Code M0 must be present only if FLs 24-30 contains code C3.
- m. Neither the “From” nor the “Through” portion can exceed eight positions allowing for separations (nonnumeric characters) in the third and sixth positions of each field.

FLs 39, 40 and 41 - Value Codes and Amounts

- a. Each code must be accompanied by an amount.
- b. All codes are two alpha-numeric digits
- c. Amounts may be up to ten numeric positions. (00000000.00)
- d. The valid codes are:

04-06	37-44	67-68	A1-A4	D3
08-19	46-53	70-72	B1-B3	
31	56-65	75-76	C1-C3	
- e. If code 06 is entered, there must be an entry for code 37.
- f. If codes 08 and/or 10 are entered, there must be an entry in FL 10.
- g. If codes 09 and/or 11 are entered, there must be an entry in FL 9.
- h. If codes 12, 13, 14, 15, 41, 43, or 47 are entered as zeros, occurrence codes 01, 02, 03, 04, or 24 must be present.
- i. Entries for codes 37, 38, and 39 cannot exceed three numeric positions.
- j. If the blood usage data is present, code 37 must be numeric and greater than zero.

FL 42 - Revenue Codes

- a. Four numeric positions.
- b. Should be listed in ascending numeric sequence except for the final entry, which must be "0001."
- c. There must be a revenue code adjacent to each entry in FL 47.
- d. For bill type 13X or 83X, the following revenue codes require a 5-position HCPCS code

0274, 030X, 031X, 032X, 034X, 035X, 040X, 046X, 0471, 0481, 0482,
061X, 0730, 0732, or 074X
- e. For bill type 32X, 33X the following revenue codes require a 5-position HCPCS code

0274, 029X, 042X-044X, 055X-057X, and 0601- 0604

- f. For bill type 34X, the following revenue codes require a 5 position HCPCS:

0271-0274 and 0601-0604

FL 44 - HCPCS Codes

- a. For bill type 13X or 83X the HCPCS codes below must be reported with the specific revenue code shown. These revenue codes can also be reported with other HCPCS codes.

046X 94010, 94060, 94070, 94150, 94160, 94200, 94240, 94250,
94260, 94350, 94360, 94370, 94375, 94620

0471 92504, 92511, 92541, 92542, 92543, 92544, 92545, 92551,
92552, 92553, 92555, 92556, 92557, 92563, 92567, 92568,
92569, 92575, 92584, 92585

0480 93307, 93308, 93320

0482 93017

0636 Revenue code 636 relates to the HCPCS code for drugs
requiring detailed coding.

0730 93005, 93024, 93041, 93202, 93208, 93221

0731 93225, 93024, 93041, 93202, 93208, 93221

0732 93012

074X 95819

075X 91010, 91011, 91012, 91020, 91030, 91055

0921 93721, 93731, 93732, 93733, 93734, 93735, 93736

0922 95860, 95861, 95863, 95864, 95867, 95868, 95869, 95872,
95900, 95904, 95925, 95935, 95937

For bill type 13X or 83X and revenue codes 0360-0369, a five-position HCPCS code of 10000 - 69979 must be present unless diagnosis code V64.1, V64.2 or V64.3 is present.

FL 46 - Units of Service

- a. Up to seven numeric positions.
- b. There must be an entry in this column if revenue code series 010X-016X, 020X, 021X, 0262, 0263, 0274, 0291, 030X-031X, 032X, 0333, 034X, 035X, 038X,

0403, 045X, 051X, 052X, 061X, or 080X are entered. Revenue code series 041X, 042X, 043X, 044X, 048X, 091X 0636, and 0943 require an entry only if the first digit of FL 4 is 1-6 and the second digit of FL 4 is "4." Exception: All revenue codes require units for bill types 32X, 33X, 81X, and 82X.

- c. Accommodation units must equal covered days (FL 7).

FL 47 - Total Charges

- a. Up to ten numeric positions (00000000.00).
- b. There must be an entry adjacent to each entry in FL 42.
- c. The "0001" amount must be the sum of all the entries.

FLs 50 - A, B, and C - Payer Identification

- a. "Medicare" must be entered on one of these lines depending upon whether it is the primary, secondary or tertiary payer.
- b. If value codes 12, 13, 14, 15, 16, 41, 42, 43, or 47 are present, data pertaining to Medicare cannot be entered in Line A of FLs 50-62.

FL 51 - Medicare Provider Number

- a. A 6-position alpha/numeric field
- b. Left-justified

FLs 58 - A, B, C - Insured's Name

- a. Must be present, cannot be all spaces.

FLs 60 - A, B, C - Certificate/Social Security Number/HI Claim/Identification Number

- a. Must be present.
- b. Must contain nine numeric characters and at least one alpha character as a suffix. The first alpha suffix is entered in position ten, the second in position eleven, etc. The first three numbers must fall within the range of: 001 through 649, and 697 through 729 only.
- c. The alpha suffix must be A through F, H, J, K, M, T, or W. Alpha suffixes A and T must not have a numeric subscript. Alpha suffixes B, D, E, M, and W may or may not have a numeric subscript.

- d. If the alpha suffix is H, it must be followed by A, B, or C in position eleven. The numeric subscript (position twelve) must conform to the above for the A, B, or C suffix to be used.
- e. RRB claim numbers must contain either six or nine numeric characters, and must have a one, two or three character alpha prefix.
- f. For prefixes H, MH, WH, WCH, PH, and JA only a six numeric field is permissible. For all other prefixes, a six or nine numeric field is permissible.
- g. Nine numeric character claim numbers must have the same ranges as the SSA nine position claim numbers.

FL 67 - Principal Diagnosis Code

- a. Must be three to five positions left justified with no decimal points. Validate with MCE program in accordance with Chapter 2, Inpatient Part A Hospital.
- b. Must be valid ICD-9-CM code

FLs 68-75 - Other Diagnosis Codes

- a. If present, must be three to five positions, left justified with no decimal points. The FI validates this with the MCE.

FL 80 - Principal Procedure Code and Date

- a. If present, must be valid. The FI will validate with the MCE.
- b. If code is present, date must be present and valid.
- c. Date must fall before the “Through” date in FL 6. (In some cases it may be before the admission date, i.e., where complications and admission ensue from outpatient surgery.)

FL 81 - Other Procedure Codes and Dates

- a. If present, apply edits for FL 80.

FL 82 - Attending/Referring Physician ID

- a. The UPIN must be present on inpatient Part A bills with a “Through” date of January 1, 1992, or later. For outpatient and other Part B services, the UPIN must be present if the “From” date is January 1, 1992, or later. This requirement applies to all provider types and all Part B bill types.

Number, last name and first initial must be present;

If first three characters of UPIN are INT, RES, VAD, PHS, BIA, OTH, RET, or SLF, exit. Otherwise, the 4th through 6th positions must be numeric.

Recording Density 6250 bytes per inch.

Recording Code	Extended Binary Coded Decimal
File Label	None. The tape must have an end of file mark. The first data record on the file identifies the submitter and receiver, and serves as the file label.
Physical Record Length	192 characters
Block Size	32,640 characters: i.e., a blocking factor of 170.
Unfilled Final Block	Fill with spaces.

The external label on the reel must appear as follows:

- From ____a____ To ____b____
- Reel Number ____c____ Claim Types ____d____
- Billing Date ____e____
- f. ____ Medicare ____ Medicaid ____ Other
- Recording Density 6250 BPI
- a. Identification of submitter
 - b. Identification of intended recipient
 - c. Unique number by which tape is identified in submitter's tape library
 - d. Types of claims on the tape: e.g., inpatient hospital, inpatient SNF, outpatient hospital
 - e. Date type created (MMDDYY)
 - f. Check one: Medicare, Medicaid, or Other

90.2 - File Specifications - Media Other Than Magnetic Tape

(Rev. 1, 10-01-03)

File Label	None
Physical Record Length	192 characters
External Label	Same as magnetic tape, a thru f, for media other than telecommunications.

Other specifications will be agreed upon between provider and FI with the concurrence of the appropriate Regional Administrator.

90.3 - Record Specifications

(Rev. 1, 10-01-03)

The logical claim record is made up of a series of 192 character physical records. The physical records for each claim are divided into logical subsets as follows:

Subset 1	Patient Data	Record Codes 20-29
Subset 2	Third Party Data	Record Codes 30-39
Subset 3	Claim Request Data	Record Codes 40-49
Subset 4	Inpatient Accommodations Data	Record Codes 50-59
Subset 5	Ancillary Services Data	Record Codes 60-69
Subset 6	Medical Data	Record Codes 70-79
Subset 7	Physician Data	Record Codes 80-89

The record layouts that follow will provide the following data:

1. Record Name The name of the data record.
2. Record Type Code indicating the type of record.
3. Record Size Physical length of record. Constant 192.
4. Field Number
5. Field Name
6. Picture This is the COBOL picture. Pic X is initialized to blanks and Pic 9 is initialized to zeroes. All money fields and date fields are Pic 9. All code fields that have a legitimate value of zero are Pic X. This makes it possible to detect whether a field is omitted.
7. Field Specification This indicates how the data field is justified.

L = Left Justification, and R = Right justification
8. Position

From Leftmost position in the record (high order).

Thru Rightmost position in the record (low order).

9. All filler fields are reserved for national use unless otherwise specified.

90.5 - Record Layouts

(Rev. 1, 10-01-03)

Record Type 01 - Processor Data V 6.0

Must be first record on file.

Must be followed by RT 10.

NOTE: Files will be formatted so that this is a data record, not a conventional label. From a system standpoint, this will be a “label less” file.

The processor data record will be the first record on each reel.

This record indicates, in fields 5 through 7, the class and identification of the organization designated to receive this file or transmission. If the code in field 5 is a “Z,” the file contains records for multiple primary payers. In this case, the employer identification number (EIN), also known as the tax identification number (TIN), identifies the organization designated to receive this tape or transmission. Otherwise, the code in field 5 designates the types of primary payer. Field 6 contains the receiver/primary payer identification (NAIC number for commercials, Blue Cross number for PLANS, as indicated by each State agency for Medicaid, as assigned by TriCare (formerly CHAMPUS) where applicable, etc.). For commercial insurers, Field 7 contains the specific office within the insurance carrier designated to receive this tape or transmission. For Blue Cross Plans, this field will be used as designated by the Plan receiving the file.

It is recommended that FIs/ providers and other billers establish a protocol limiting a file to a single reel of tape, single disk, cartridge, or cassette. In the event a file exceeds that limit, the reel, cartridge, or disk must end in a batch control (record type (RT) 95).

Record Type 10 - Provider Data V 6.0

Must follow either RT 01 or 95.

Must be followed by RT 20 or RT 74. RT 20 is used when submitted billing record. RT 74 is used only when attachment information is being sent independent of the claim.

NOTE: This record must be present for each provider batch combination.

Record Type 20-2N - Patient Data V 6.0

Must follow RT 10, RT 90, or RT 91.

Must be followed by RT 21-2N or RT 30.

All records following up through RT 90 must have the same patient control number.

Record Type 21 - Non-Insured Employment Information V 6.0

Must Follow RT 20.

Must be followed by RT 21-2N or RT 30.

This record contains employment information pertaining to individuals not claiming insurance, but who may have some insurance coverage through their employer from which the patient may be eligible for benefits.

There are four different individuals to whom this may apply: the patient, the patient's spouse, the patient's father, and the patient's mother. If more than two of these individuals are involved in this claim, use a second record type 21 to submit the relevant employment data for the third, and if applicable, the fourth party involved. The sequence number (field 2) of the second Type 21 record is shown as "02."

Record Type 22 - Unassigned State Form Locators

Not required by Medicare

Assignment and/or use of these form locators is the responsibility of individual State Uniform billing committees (SUBCs).

The state code in field 4 is used to identify the SUBC responsible for the definition of the form locators on this sequence of RT 22.

Must follow RT 20 or 21.

Must be followed by RT 30.

Sequence 01 represents the primary payer, sequence 02 represents the secondary payer, and sequence 03 represents the tertiary payer.

Record Type 30 - 3N - Third Party Payer

One third-party payer record packet (record types 30-3N) must appear in the bill record - for each payer involved in the bill. Each third party payer packet must contain a record type 30. However, each record type 30 may or may not have an associated record type 31 depending on the specific third party payer data required by the particular payer.

There is an optional RT 34 that contains detailed authorization information. If the contractor requires treatment or other authorization in advance of the beneficiary's receipt of services, issue an authorization number. If the authorization number is for a limited period of time, inform the provider of the applicable dates. If the authorization number applies to the entire claim, it is entered in RT 40 in the appropriate location for the payer issuing it. For further information regarding use of this record, see Record Type 40 - 4N - Claim Data.

EXAMPLE

Medicare is primary, and the secondary payer requires the insured's address.

	Record Type Code	Sequence Number
Medicare	30	01
Secondary Payer	30	02
Secondary Payer	31	02
Authorization	34	02

Because the sequence number of the type 31 record for the secondary payer matches the sequence number of the secondary payer's type 30 record, it serves as a matching criterion for the specific third party payer record packet.

Sequence 01 represents the primary payer, sequence 02 represents the secondary payer, and sequence 03 represents the tertiary payer.

May be followed by RT 30, 31, 34 or 40.

See note C-8 in [§110](#) below for benefit coordination.

Record Type 34 - Authorization

For routine use of a treatment authorization number that applies to the entire claim, use RT 40, Claim-TAN-Occurrence. For authorizations requiring dates, i.e., limited to a particular period of time, HCPCS or revenue code, use RT 34, Authorization. Use the same sequence numbers for RT 34 as are used for RT 30. The sequence 01 record must refer to the primary payer, Payer A. The sequence 02 must refer to the secondary payer, Payer B, and the 03 must refer to the tertiary payer, Payer C.

Use RT 34 when revenue code 0624 is used in RT 60 or 61 to report investigational device exemption number (IDE). If multiple IDEs are in RT 60 or 61, the first is described in fields 4-9, the second in field 10, and the third in field 11.

Should the contractor need to show authorization for only the secondary payer, complete an RT 34 for sequence 02 only. Do not complete an RT 34 for Payer A, sequence 01.

Use the revenue code and/or HCPCS procedure code to match the appropriate line item.

May follow RT 30, 31, or 34.

May be followed by RT 34 or 40.

Record Type 40-4N - Claim Data

Generally, a claim contains a single set of type 40 and type 41 records. Each claim must contain a RT 40. The set may or may not contain a RT 41, depending on the information being submitted. (If there are no condition or value codes to report for the particular claim, there is no need for a RT 41.) However, if one set is not sufficient to contain all iterations of a particular coding structure, e.g., more than 12 value codes are required, submit additional iterations of the appropriate record type, 40 or 41, to convey the additional codes.

For RTs 40 and 41, sequence numbers 02 or higher, all fields except the field or fields required to convey the additional code or codes that could not be contained on the sequence 01 record are initialized to zeroes or blanks as appropriate, with the exception of the Record Type, Sequence, and Patient Control Number fields.

It is conceivable that a claim may require as many as 3 sequences of Claim-TAN-Occurrence and only 1 of Condition-Value, or vice versa. This is acceptable.

Record Type 40 - Claim Data TAN - Occurrence

May follow RT 30, 31, 34 or 40.

NOTE: If the code in the occurrence code field is over 69, the two date fields following that code are associated with it, and the field following the first date is zero. If the code indicated in the occurrence span code field is less than 70, only the occurrence span from date is completed. The code and date is interpreted as an occurrence code. Similarly, if the code in the occurrence code field is M0-Z9, the two date fields following that code are associated with it, and the field following the first date is zero. If the code indicated in the occurrence span code field is A1 - L9, only the occurrence span from date is completed. The code and date is interpreted as an occurrence code.

Record Type 50 - IP Accommodations Data

May be preceded by RT 40 - 4n or 50 - 5n.

May be followed by RT 50 - 5n, 51, 52, 60, or 70.

Accommodations must be entered in numeric sequence.

The sequence number for record type 50 can go from 001 to 999, each such physical record containing four accommodations, thus making provision for reporting up to 3996 accommodations on a single claim.

Accommodation Revenue Codes: 0100 thru 021X

Record Type 60 - IP Ancillary Services Data

May be preceded by RT 40, 41, 50 - 5n, 60, or 63.

May be followed by RT 60, 62, 63, or 70.

The sequence number for record type 60 can go from 001 to 999 with each such physical record containing three inpatient ancillary service codes, thus making provision for reporting up to 2997 services although only 450 items will be accepted on a single claim.

Write all sequences of RT 60.

Payer and related information revenue codes: Codes 0010 - 0099.

These codes may be reported in RT 60, but the amounts associated with them are not to be included in control totals for ancillaries in RTS 90 and 91.

Inpatient ancillary services revenue codes: Codes 0220 - 099X.

Inpatient ancillary codes must be in code number sequence.

See note C-13 in [§110](#) below for benefit coordination.

Record Type 61 - Outpatient Procedures

May be preceded by RT 40, 41, 61, or 63.

May be followed by RT 61 - 6n, 62, 63, 70, or 80.

The sequence number for record type 61 can go from 001 to 999, each such physical record containing three procedure codes, thus making provision for reporting up to 2997 services although only 450 items will be accepted on a single claim.

Payer and related information revenue codes: 0010 - 0099.

These codes may be reported in RT 61, but the amounts associated with them are not to be included in control totals for ancillaries in RTS 90 and 91.

Outpatient ancillary codes must be in code number sequence.

Record Type 70 - 7N - Medical Data

May be preceded by RT 50, 60 or 61.

May be followed by RT 7N, 80, or 90.

The sequence number for RT 70 can be 01 or 02. The 01 record is for the reporting of nine diagnoses and six procedures leaving filler (positions 170-192) for local use. Use an 02 record when reporting Form Locator 57 data.

NOTE: ICD-9-CM coding is required for all bill types. Do not report the decimal in the code. The ICD-9-CM diagnosis codes are assigned a Cobol picture of X. Format the actual code in one of four general ways.

If 99999 is reported, it translates to 999.99.

If V9999 is reported, it translates to V99.99.

If E9999 is reported, it translates to E999.9.

If M99999 is reported, it translates to M0000/9.

To determine the location of the decimal position and the potential number of decimal positions, it is necessary only to examine the high order (left most) position of the field.

Record Type 74 - Patient Information

This record is used only to give patient information when a provider submits attachment data (i.e., plans of treatment) independent of claim data. Each new RT 74 indicates a new and unique claim.

Attachment records (7X series) submitted separately must be in a batch submission containing RT 10 (Provider Batch Header Record) and RT 95 (Provider Batch Control). On RT 10, field 2 and RT 95, field 5 submitters enter Type of Batch “3M blank” to identify that the batch contains only attachment data.

RT 74 is not required when Record Types 20, 30, 60, 61, and 70 are submitted. RT 74 must be in a file transmission with Record Types 01, 10, 90, 95, and 99.

If submitting home health agency data, RT 74 must be preceded by Record Types 71, 72, and 73. If submitting ambulance, end stage renal disease facility, or rehabilitative services, Record Types 75, 76, or 77, respectively, must follow RT 74.

Providers must notify the contractor and conduct testing, as appropriate, prior to submitting data separate from the claim.

Record Type 75 - Medical Documentation for Ambulance Claims

May be preceded by RT 40, 41, 50, 70, 74, or 75.

If not preceded by RT 40, 41, 50, 60, or 70, must be preceded by RT 74 or 75.

May be followed by RT 75, sequence 2, 76, 77, 80, or 90.

Record Type 75 is used by providers to submit medical documentation for ambulance claims. They may submit information with or without the billing record. When submitted without billing records, RT 74 is used to give patient information.

A single record to provide documentation for the following ambulance services reported on the billing record:

A single trip;

A round trip origin to destination and return; and

Multiple trips if the origin and destination points are the same, or initial and return trips are the same.

Separate record for each ambulance trip(s) reported on the bill does not meet the above criteria.

Record Type 76 - Format L - ESRD Medical Documentation

May be preceded by RT 40, 41, 50, 60, or 70.

If not preceded by RT 40, 41, 50, 60, or 70, must be preceded by RT 74.

May be preceded by RT 72, 73, or 75.

May be followed by RT 76-M, 77, 80, or 90.

Record Type 76 is used by providers to submit medical documentation for ESRD facility claims. They may submit the information with or independent of claim data. If submitted independent of claim data, providers use RT 74 to give patient information. If providers must provide information on more than 4 lab tests, they may repeat RT 76, format L until number of occurrences is met.

All information on RT 76, format L should be completed before creating sequences of RT 76, format M. All filler is for national use.

Lab values have an implied decimal point after the fifth left position. For example, the largest field size is 99999.99.

Excepting fields 1 through 4 on RT 76, formats L and M, all field requirements are at payer discretion. For Medicare, the requirement of submission for any individual field, except fields 1 through 4, is at FI discretion to meet medical review needs.

Additional narrative remarks needed to clarify information on RT 76 should be placed in RT 90 or RT 91, as appropriate.

Record Type 77 - Format A - Administrative Data Record

This record series (RT 77) supports information regarding a plan of treatment for outpatient rehabilitative services. It correlates to paper Forms CMS-700 and 701. It may be sent with billing records or upon request by a payer or its FI. RT 77 was designed for use by the Medicare program. It may be used by other payers desiring the same rehabilitative services information. All sequences and fields of RT 77 are reserved for national use.

Format A describes the provider of service and the attending physician. It may be repeated for multiple disciplines.

May follow RT 77, format N (Rehabilitative Services Narrative Text) if multiple disciplines are being reported.

Must be followed by RT 77, format R (Rehabilitative Services).

If submitted with claim:

Must be preceded by Record Types 20, 30, 40, 61, 70. RT 41 may precede RT 77 series. Record Types 80 and 90 must follow the RT 77 series. Record Types 01, 10, 95, and 99 must be included in the file submission.

If being submitted independent of claim:

Must be preceded by RT 74 and followed by RT 90. Record Types 01, 10, 95, and 99 must be included in the file submission. RT 74 is required and indicates a new and unique claim

Multiple rehabilitative disciplines can relate to one claim (identified by RT 20 or the ICN/DCN on RT 74), but new formats A and R must be created for each discipline. For example, if the contractor request information about PT and OT services, two pairs of formats A and R must be included in the transaction. All records, including narrative formats, relating to a specific rehabilitative discipline (e.g., PT), should be created and grouped sequentially before preceding to a new rehabilitative discipline (e.g., OT).

There is only one format A and one format R record for each discipline. They must occur in that order. Narrative records (format N) follow format R. When a second or subsequent discipline is necessary, the second or subsequent format A is submitted in sequence, followed by format R and, as necessary, format N records.

For an example of the sequencing, see the Program Integrity Manual, Chapter 9, at the following website: http://cms.hhs.gov/manuals/108_pim/pim83toc.asp

Record Type 77 - Format R - Rehabilitative Services Record

Format R describes the plan of treatment and certification for an outpatient rehabilitative service. It may be repeated for multiple disciplines.

Multiple rehabilitative disciplines can relate to one claim (identified by RT 20 or the ICN/DCN on RT 74), but formats A and R must be created for each discipline. For example, if the contractor requests information about PT and OT services, two pairs of formats A and R should be included in the transaction. All records, including narrative formats, relating to a specific rehabilitative discipline (e.g., PT) should be created and grouped sequentially before preceding to a new rehabilitative discipline (e.g., OT).

There is only one format A and one format R record for each discipline. They must occur in that order. Narrative records (format N) follow format R. When a second or subsequent discipline is necessary, the second or subsequent format A is submitted in sequence, followed by format R and, as necessary, format N records.

Fields 19 through 23 are for optional use for psychiatric services.

Must follow RT 77, format A.

May be followed by RT 77, format N.

If submitted with claim:

Record Type 77 - Format N - Rehabilitative Services Record

Format N supports the submission of narrative text by the provider.

Must follow RT 77, format R.

May be followed by RT 77, format N as directed below and, as appropriate, to contractor information requests and requirements.

May be followed by RT 77, format A if multiple rehabilitative disciplines are submitted.

If submitted with claim:

- **May be followed by RT 80.**

If submitted independent of claim:

- **May be followed by RT 90.**

The type of narrative records requested/required by the contractor follows the needs and requirements of all MR processes. Specify the necessary narrative types. Providers must limit the text to information pertinent to the current plan of treatment.

All narrative records for each discipline should be grouped sequentially before proceeding to a subsequent discipline, noted by a format A record. For example, all PT narrative records should be completed before creating an OT sequence, beginning with a new format A. All records of a specific narrative type (e.g., functional goals) must be grouped together in sequential order. For example, all plan of treatment narrative (narrative type 04) for PT should be completed before beginning records for progress report (narrative type 05) for PT.

Multiple sequences of specific narrative types may be repeated to accommodate text information. (See the Program Integrity Manual, Chapter 9, at the following website: http://cms.hhs.gov/manuals/108_pim/pim83toc.asp for an example of sequencing.) Narrative for an individual narrative type (e.g., 02 - initial assessment) can repeat up to but no more than three (3) times for a total of 456 bytes of information **except narrative type 05 (progress report)** which can repeat up to but no more than six (6) times for a total of 912 bytes of information.

Record Type 80 - 80N - Physician Data

May be preceded by RT 70 - 7N.

May be followed by RT 80, or 90.

The sequence number for record type 80 can be 01 - 20. The 01 record is always for the primary payer. If the secondary payer uses a different physician identification numbering scheme from the primary payer, the provider shows the secondary payer's physician identification number on the 02 sequence record. If the tertiary payer uses a different physician identification numbering scheme from the primary or secondary payer, the provider shows the tertiary payer's physician identification number on the 03 sequence record. If a primary payer requests multiple physician numbers, sequence number 11 is used. If a secondary payer requests multiple physician numbers, sequence number 12 is used. If a tertiary payer requests multiple physician numbers, sequence number 13 is used. The sequences must match those on RT 30.

110 - Notes for Benefit Coordination

(Rev. 1, 10-01-03)

A3-Addendum A

These footnotes reference the use of UB-92 claim records for coordination of benefits (COB). The remaining records used for COB (RT 02, 42, 51, 52, 62-64, 92, 93, and 98) are found in a [§120](#) below. Except where noted below, UB-92 claim records are used in the same fashion as specified in [§110](#) above. Unless noted below, use [§130](#) - Alphabetic Listing of Data Elements Used in UB-92 Version 6 for all field definitions for UB-92 claim records, including those which are designated for COB specific information.

The COB file must be written as an outbound file in strict record type (primary), record sequence (secondary), and service (revenue code - tertiary) sequence.

C - 1 RT 01 - Processor Data

Record Usage: Mandatory- data available

Format Notes: Only one RT 01 can be
written per file submission.

Must be followed by RT 02.

Field Notes:

Field 2 - Submitter
EIN

Mandatory

If COB file is outbound from a Medicare contractor, use the
“Medicare Contractor ID Number.”

Field 3 - Multiple
Provider Billing File
Indicator

Optional

Field 6 - Receiver
Identification and

Combine to display the same data as the COB eligibility file
on RT E00 and E01.

Field 7 - Receiver
Sub-Identification:

Use National Association of Insurance Commissioners
(NAIC) number if available.

If no NAIC number is available, use NZZZZZSSS.

C - 2 RT 10 - Provider Data

Record Usage: Mandatory- data available

Format Notes: This record must be present for each provider batch combination.

Must follow either RT 02 or 95.

Field Notes:

Field 2 - Type of Batch Batch by first two characters of Type of Bill

Field 4 - Provider Federal Tax Number or EIN: Mandatory

C - 3 RT 20-2N - Patient Data

Record Usage: Mandatory

Format Notes: Must follow RT 10, 92, or 93.

Do not repeat RT 10, if multiple patient claims for same provider (unless batching by type of bill).

All records following up through RT 93 must have the same patient control number.

Field Notes:

Field 9 - Marital Status: Optional

Field 18 (Admission Hour) and Optional

Field 22 (Discharge Hour):

C - 4 RT 21 - Non-insured Employment Information

Record Usage: Optional

Field Notes:

Fields 9a and 16a (Employer Qualifier): See definition below in [§130](#) - Alphabetic Listing of Data Elements Used in UB-92 Version 6.

Field 9 - Patient Marital Status: Optional

Field 18 - Admission Hour: Optional

Field 22 - Discharge Hour: Optional

C - 5 RT 22 - Unassigned State Form Locators

Record Usage: Optional

Format Notes: If record received by Medicare, it will not be edited, but it must be passed through to the next payer,

Must follow RT 20, 21, or 22.

May be followed by RT 22 or 30.

C - 6 RT 30 - Third Party Payer Data

Record Usage: Mandatory

Format Notes: May follow RT 20, 21, 22, or 30.

Field Notes:

Field 4 - Source of Payment Code For Medicare, use "C" if outbound file.

Field 9 - Payer Code When Medicare is primary, use "Z."

C - 7 RT 31 - Third Party Payer Data

Record Usage: Mandatory

Format Notes: Mandatory record for Medicare. Optional for other payers.

Field Notes:

Field 14 - Form Locator 37 ICN/DCN This is always the original claim submitted ICN/DCN even if an adjustment claim is being processed.

C - 8 RT 32 - Third Party Payer Data

Record Usage: Optional

Format Notes: Mandatory for Medicare. Optional for other payers.

C - 9 RT 34 - Authorization

Record Usage: Optional

Format Notes: Record is required for Medicare submissions for investigational device exemption(IDE) claims.

If the record is received for non-IDE claims, Medicare will not edit, but pass on, unchanged, to other payers.

C - 10 RT 40 - Claim Data TAN Occurrence

Record Usage: Mandatory

Format Notes: May be followed by RT 40, 41, 42, 50, 60, or 61.

Field Notes:

Field 4 - Type of Bill	When used in conjunction with a revenue code, and possibly a HCPCS code, when present, could indicate the type of medical service rendered.
------------------------	---

C - 11 RT 41 - Claim Data Condition Value

Record Usage: Mandatory if data present

Format Notes: May be followed by RT 41, 42, 50, 60, or 61.

C - 12 RT 50 - IP Accommodations Data

Record Usage: Mandatory for inpatient bills if data present.

Format Notes: Do not write revenue code 0001 in this record. Totals for all accommodation revenue code submitted charges for the claim should be reflected in RT 90, field 13 (Total Accommodation Charges) and RT 92, field 6 (Total Submitted Charges). Total noncovered charges should be reflected in RT 90, field 14 (Noncovered Accommodation Charges) and RT 92, field 7 (Total Noncovered Charges).

Field Notes

Field 14 - Form Optional
Locator 49

C - 13 RT 60 - IP Ancillary Services Data

Record Usage: Mandatory for inpatient bills only, if data present.

Format Notes: May be preceded by RT 40, 41, 42, 50-5n, or 60.

May be followed by RT 60, 62-64, or 70.

Do not send revenue code 0001 in this record. The total submitted and noncovered charges for all ancillary revenue codes for the claim should be reflected in RT 90, fields 15 (Total Ancillary Charges) and 16 (Noncovered Ancillary Charges) and RT 92, fields 6 (Total Submitted Charges) and 7 (Total Noncovered Charges).

C - 14 RT 61 - Outpatient Procedures

Record Usage: Mandatory for outpatient procedures.

Format Notes: May be preceded by RT 40, 41, 42, or 61.

Do not send revenue code 0001 in this record. The total submitted and noncovered charges for all procedure codes for the claim should be reflected in RT 90, fields 15 (Total Ancillary Charges Revenue Centers 0220-099X) and 16 (Noncovered Ancillary Charges Revenue Centers 0220-099X) and RT 92, fields 6 (Total Submitted Charges) and 7 (Total Noncovered Charges).

Comment: This is a payer generated Record Type and is not created by the provider.

NOTE: Mandatory for Medicare if ASC ANSI X12N 835 Remittance Reason Codes are used in claims processing. Reason code values and amounts should be the same as those applied to the ANSI ASC ANSI X12N 835 Remittance.

Record Type 51 - IP Accommodations Line Item Remarks Codes

Mandatory if line level Remarks Codes are present.

May follow RT 50, RT 51, or RT 52.

May be followed by RT 50, RT 51, RT 52, RT 60, or RT 70.

RT 51 should use the same sequence number as the corresponding RT 50.

The sequence number for RT 51 can go from 001 to 999.

The payer sequence "01" would represent the Primary Payer, payer sequence "02" would represent the Secondary Payer, and payer sequence '03' would represent the Tertiary Payer.

The revenue code sequence shows which of the four occurrences of revenue code on RT 50 is being referenced. Valid values are 1 through 4.

The COB record type sequence references the order of this record where there are multiple occurrences (one claim line can generate multiple RT 51's). Valid values are 1 through 4.

Record Type 52 - Inpatient Accommodations Reason Codes

Mandatory if line level Remarks Codes are present.

May follow RT 50, RT 51, or RT 52.

May be followed by RT 50, RT 52, RT 60, or RT 70.

Use RT 52 for IP accommodations

RT 52 should use the same sequence number as the corresponding RT 50.

The sequence number for RT 52 can go from 001 to 999.

The payer sequence “01” would represent the Primary Payer, payer Sequence “02” would represent the Secondary Payer, and payer sequence “03” would represent the Tertiary Payer.

The revenue code sequence shows which of the four occurrences of the revenue code on RT 50 is being referenced. Valid values are 1 through 4.

COB record type sequence references the order of this record where there are multiple occurrences (one claim line can generate multiple RT 52’s). Valid values are 1 through 4.
